Beckenbaugh, 2018-11-02 An indispensable resource on the Treaty of Versailles one of the most influential and controversial documents in history this book explains how the treaty tried to solve the complex issues that emerged from the destruction of World War I This carefully curated primary source collection includes roughly 60 documents related to the signing of the Treaty of Versailles By collecting all of the most significant documents in one volume it allows readers to hear the original arguments surrounding the treaty and to explore the voices of the people involved at the Paris Peace Conference Moreover it allows readers to engage with the documents so as to better understand the complex motivations and issues coming out of World War I and highlights the differences between the victors and identifies the problems many countries had with the treaty before it was even signed The documents are organized in chronological order providing a blueprint to help students to understand all of the significant events that led to the treaty as well as the vast repercussions of the treaty itself In addition to the Treaty of Versailles itself documents include such significant primary sources as the Sykes Picot Agreement the Balfour Declaration the Treaty of Brest Litovsk President Woodrow Wilson's Fourteen Points and Germany's response to the treaty The Treaty of Versailles Manfred F. Boemeke, Gerald D. Feldman, Elisabeth Glaser, 1998-09-13 This text scrutinizes the motives actions and constraints that informed decision making by the various politicians who bore the principal responsibility for drafting the Treaty of Versailles *Britain and Italy in the Era of the First World War* Stefano Marcuzzi, 2020-12-10 Reassesses British and Italian grand strategies from 1914 to 1920 including the war the peace conference and the Fiume crisis **The Lights that Failed** Zara S. Steiner, Zara Steiner, 2007 In The Lights that Failed Steiner challenges the assumption that the Treaty of Versailles led to the opening of a second European war and provides an analysis of the attempts to reconstruct Europe during the 1920s OCLC **Winston Churchill and the German Question**

in British Foreign Policy 1918-1922 D.G. Boadle, 2012-12-06 It was in the early summer of 1906 that Violet Bonham Carter first met Winston Churchill an encounter which left an indelible impression upon her I found myself she recalled sitting next to this young man who seemed to me quite different from any other young man I had ever met For a long time he remained sunk in abstraction Then he appeared to become aware of my existence He turned on me a lowering gaze and asked me abruptly how old I was I replied that I was nineteen And he said almost despairingly am thirty two already Younger than anyone else who counts though he added as if to comfort himself Then savagely Curse ruthless time Curse our own mortality How cruelly short is the allotted span for all we must cram into it And he burst forth into an eloquent diatribe on the shortness of human life the immensity of possible human accomplishment a theme so well exploited by the poets prophets and philosophers of all ages that it might seem difficult to invest it with a new life and startling significance Yet for me he did so in a torrent of magnificent language which appeared to be both effortless and inexhaustible and ended up with the words I shall always remember We are all worms But I do believe that I am a glow worm Failed Imagination?

Andrew J. Williams, 1998 Francisco Gomez de Sandoval Duke of Lerma 1553-1625 is the last major unknown statesman in modern European history Patrick Williams brings him dramatically to life and challenges the assumptions that historians have made about him and about Spanish history at a time of profound crisis inviting a re-evaluation of the phenomenon of government by favourites in this seminal period of European history Lerma served Philip III as his favourite and first minister between 1598 and 1618 His power dazzled contemporaries one petitioner telling Philip that he had come to see him because I could not get an appointment with the Duke of Lerma Within a decade of assuming office Lerma had raised his family from humiliating poverty to great riches and was the greatest patron of the arts in Europe His use of power provoked intense debate about the nature of corruption in government Yet Lerma remained deeply ambivalent about his position Determined to follow family tradition and retire into religious life to secure the salvation of his soul he secured a cardinalate in 1617 ending his life as a prince of the Church **Failed Imagination?**

Andrew Williams, 2013-01-18 The main purpose of this book is to explain how mainly American but also British and other Western policy makers have planned and largely managed to create an international order in their own image the so-called New World Order It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty-first centuries It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order one that both reflects the American national interest but also can be said to have established the major security economic organisational and normative pillars of our epoch In addition it provides excellent background reading for the current debate about American foreign policy and the origins of neo-conservatism in international relations This edition updates a very successful first edition of the title with additional material to take into account changes in the global order since 2001 and the beginning of the War on Terror **Maynard Keynes**
