**Parallel Lines** Guy Westwell, 2014-10-21 Parallel Lines describes how post 9 11 cinema from Spike Lee s 25th Hour 2002 to Kathryn Bigelow s Zero Dark Thirty 2012 relates to different and competing versions of US national identity in the aftermath of the September 11th terrorist attacks The book combines readings of individual films World Trade Center United 93 Fahrenheit 9 11 Loose Change and cycles of films depicting revenge conspiracy torture and war with extended commentary on recurring themes

including the relationship between the US and the rest of the world narratives of therapeutic recovery questions of ethical obligation The volume argues that post 9 11 cinema is varied and dynamic registering shock and upheaval in the immediate aftermath of the attacks displaying capacity for critique following the Abu Ghraib prisoner abuse scandal mid decade and seeking to reestablish consensus during Obama s troubled second term of office **The American Superhero** Richard A. *Islamic Liberation Theology* Hamid Dabashi,2008-05-14 This book is a radical piece of counter intuitive rethinking of the clash of civilizations theory and global politics In this richly detailed criticism of contemporary politics Hamid Dabashi argues that after 9 11 we have not seen a new phase in a long running confrontation between Islam and the West but that such categories have in fact collapsed and exhausted themselves The West is no longer a unified actor and Islam is ideologically depleted in its confrontation with colonialism Rather we are seeing the emergence of the US as a lone superpower and a confrontation between a form of imperial globalized capital and the rising need for a new Islamic theodicy The combination of political salience and theoretical force makes *Islamic Liberation Theology* a cornerstone of a whole new generation of thinking about political Islamism and a compelling read for anyone interested in contemporary Islam current affairs and US foreign policy Dabashi drives his well supported and thoroughly documented points steadily forward in an earnest and highly readable style Terrorism TV Stacy Takacs,2012-04-30 The Fox TV series 24 might have been in production long before its premier just two months after 9 11 but its storyline and that of many other television programs has since become inextricably embedded in the nation s popular consciousness This book marks the first comprehensive survey and analysis of War on Terror themes in post 9 11 American television critiquing those shows that either blindly or intentionally supported the Bush administration s security policies Stacy Takacs focuses on the role of entertainment programming in building a national consensus favoring a War on Terror taking a close look at programs that comment both directly and allegorically on the post 9 11 world In show after show she chillingly illustrates how popular television helped organize public feelings of loss fear empathy and self love into narratives supportive of a controversial and unprecedented war Takacs examines a spectrum of

program genres talk shows reality programs sitcoms police procedurals male melodramas war narratives to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties Spanning the past decade of the ongoing conflict she reviews not only key touchstones of post 9 11 popular culture such as 24 Rescue Me and Sleeper Cell but also less remarked upon but relevant series like JAG Off to War Six Feet Under and Jericho She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions Who exactly are we fighting Why do they hate us and she examines the climate of fear and paranoia they ve created Unlike cultural analyses that view the government s courting of Hollywood as a conspiracy to manipulate the masses her book considers how economic and industry considerations complicate state media relations throughout the era Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration s security agenda and argues for the continued importance of the medium as a tool of collective identity formation It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty first century [The American Villain](#) Richard A. Ther Pickens Steven Salaita Ella Shohat and Sarah M A Gualtieri      **The Twenty-first Century African American Novel and the Critique of Whiteness in Everyday Life** E. Lâle Demirtürk, 2016-05-25 This book examines the post 9 11 African American novels developing a new critical discourse on everyday discursive practices of whiteness The critique of everyday life in the racial context of post 9 11 American society is important in considering diverse forms of the lived experiences and subjectivities of black people in the novels They help us see that African American representations of the city have political significance in that the neo urban novel explores the possibility of a black dialogic communication to build a transformative social change Since the real power of Whiteness lies in its discursive power the book reveals the urgency to understand not only how whiteness works in everyday life in American society But it also explores how to cultivate new possibilities of configuring and performing Blackness differently as a response to the post 9 11 configurations of the culture of fear to produce new ways of interactional social relations that can eventually open up the space of critical awareness for white people to work against rather than reinforce discursive practices of White supremacy in everyday life This book explores how the multiple subjectivities and transformative acts of blackness can offer ways of subverting the discursive power of the white embodied practices What defines post 9 11 America as a nation that is consumed by the fear of racialized terrorists is its roots in the fear of uncontrollable Blackness as excess and ominous threat in the domestic terrain through which the ideology of White supremacy has constructed for governing through Whiteness African American urban novels published in the twenty first century respond to the discursive power of normative Whiteness that regulates black bodies selves and lives This book demonstrates how black people contest white dominant social spaces as sites of black criminality and exclusion in an attempt to re signify them as the sites of black transformative change through personal and grassroots activism through their performativity of Blackness as an agential identity formation in their interpersonal urban social encounters with white people Hence the vulnerable spaces of Whiteness in interracial urban encounters as it pervasively addresses those moments of transformative change enacted by Black characters in the face of the discursive practices of whiteness in the everyday life These novels celebrate multifarious representations of black individuals who are capable of using their agency to subvert White discursive power in finding ways in their personal and grassroots activism to transform the culture of fear that locates Blackness as such in an attempt to make a difference in the American society at large      **Pop Goes the Decade** Richard A. **The End of American Lynching** Ashraf H. A. Rushdy,2012-06-18 The End of American Lynching questions how we think about the dynamics of lynching what lynchings mean to the society in which they occur how lynching is defined and the circumstances that lead to lynching Ashraf H A Rushdy looks at three lynchings over the course of the twentieth century one in Coatesville Pennsylvania in 1911 one in Marion Indiana in 1930 and one in Jasper Texas in 1998 to see how Americans developed two distinct ways of thinking and talking about this act before and after the 1930s One way takes seriously the legal and moral concept of complicity as a way to understand the dynamics of a lynching this way of thinking can give us new perceptions into the meaning of mobs and the lynching photographs in which we find them Another way which developed in the 1940s and continues to influence us today uses a strategy of denial to claim that lynchings have ended Rushdy examines how the denial of lynching emerged and developed providing insight into how and why we talk about lynching the way we do at the dawn of the twenty first century In doing so he forces us to confront our responsibilities as American citizens and as human beings *Captivating Westerns* Susan Kollin,2019-05-01 Tracing the transnational influences of what has been known as a uniquely American genre the Western Susan Kollin s *Captivating Westerns* analyzes key moments in the history of multicultural encounters between the Middle East and the American West In particular the book examines how experiences of contact and conflict have played a role in defining the western United States as a crucial American landscape Kollin interprets the popular Western as a powerful national narrative and presents the cowboy hero as a captivating figure who upholds traditional American notions of freedom and promise not just in the region but across the globe *Captivating Westerns* revisits popular uses of the Western plot and cowboy hero in understanding American global power in the post 9 11 period Although various attempts to build a case for the war on terror have referenced this quintessential American region genre and hero they have largely overlooked the ways in which these celebrated spaces icons and forms rather than being uniquely American are instead the result of numerous encounters with and influences from the Middle East By tracing this history of contact encounter and borrowing this study expands the scope of transnational studies of the cowboy and the Western and in so doing discloses the powerful and productive influence the Middle East has had on the American West

*Caricature and National Character* Christopher J. Gilbert,2021-04-19 According to the popular maxim a nation at war reveals its true character In this incisive work Chris Gilbert examines the long history of US war politics through the lens of political cartoons to provide new unique insights into American cultural identity Tracing the comic representation of

American values from the First World War to the War on Terror Gilbert explores the power of humor in caricature to expose both the folly in jingoistic virtues and the sometimes strange fortune in nationalistic vices He examines the artwork of four exemplary American cartoonists James Montgomery Flagg Dr Seuss Ollie Harrington and Ann Telnaes to craft a trenchant image of Americanism These examinations animate the rhetorical and indeed comic force of icons like Uncle Sam national symbols like the American Eagle political stooges like President Donald J Trump and more as well as the power of political cartoons to comment on issues of race class and gender on the home front Throughout Gilbert portrays a US culture rooted in and riven by ideas of manifest destiny patriotism and democracy for all yet plagued by ugly forms of nationalism misogyny racism and violence Rich with examples of hilarious and masterfully drawn caricatures from a diverse range of creators this unflinching look at the evolution of our conflicted national character illustrates how American cartoonists use farce mockery and wit to put national character in the comic looking glass Constructing 21st Century U.S. Foreign Policy K.

Schonberg,2009-07-06 This book argues that in the years since the 9 11 attacks socially constructed understandings of the identity of the United States and its friends and enemies have played a critical role in determining the course of U S foreign policy in particular the Bush administration s choices with regard to the war on Iraq **Capture the Flag** Arnaldo

Testi,2010-06 Now an acclaimed European professor of American history brings a fresh perspective to the American flag exploring its political social and cultural significance across the broad swath of its history Mining a rich vein of materials from history literature music and popular culture Arnaldo Testi analyzes the symbolic importance of the flag to the national consciousness of this nation of immigrants and sees in it the very contradictions that make up our history secularism and sacredness freedom and empire inclusiveness and aggressive self confidence Arabs and Muslims in the Media Evelyn

Alsultany,2012-08-20 After 9 11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media Arabs and Muslims in the Media examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as West Wing The Practice 24 Threat Matrix The Agency Navy NCIS and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality Dramaturgy of the Real on the World Stage C. Martin,2010-01-06 The Dramaturgy of the Real

brings together an incredible range of international theatre thinking plays and performance texts many published here for the first time that ask questions about how we have come to understand reality and truth in the twenty first century and analyze the presentation of non fiction on the international stage
