

necessarily numerous. There are eight chapters. The first is a short and sensible introduction. The next three, which are much the longest, describe the Red-figure style from about 530 (when it begins) to about 500 BC, the subsequent style to the 470s, and its partial survival among some backward looking painters in the second quarter of the fifth century. The fifth chapter is on the shapes of the painted pots, the sixth on the general system of decoration, the seventh on the representations of contemporary life and the eighth on representations of what are loosely called mythical subjects. At the end there are a long but classified bibliography with some useful comments, a list of illustrations with references, and indexes. The exposition is competent and thorough, and Boardman makes his points well, as on the difference in character as well as technique between Black-figure and Red-figure painting. He is also level-headed, rejecting wishful recognition of symbolic meanings and of innovations brought in by craftsmen of foreign birth and being cautious about literary sources for vase paintings. Nor is he afraid now and then to disagree with Beazley. The illustrations are chosen carefully, not skimping the erotic scenes, on which the comments show relish, and the rows of heads by the same painter are an aid to comprehension that might have been used more. As in the Black-figure book, the scale of reproduction is often small, but here—because of the technique of Red figure—details are clearer. The captions are concisely relevant, though it is a pity that they do not include dates, to make it easier for the reader to follow the development of individual painters. The style of writing is generally straightforward, with occasional studied colloquialisms, and proof reading has been good—I noted only one puzzling misprint (on p. 95, 1.4—'fine' for 'finest'?). Altogether this is a very good introduction to its subject and the price is not exorbitant.

Juliet du Boulay: *Portrait of a Greek mountain village*. (Oxford Monographs in Social Anthropology.) Oxford: Clarendon Press, 1974. 296 pp., 8 pls., 4 tables. £6.00.

Dr du Boulay chose to live in and study a mountain village (600 metres) of northern Euboea from 1966 to 1968, with a return visit in 1970. She knows demotic Greek thoroughly and achieved a remarkable symbiosis with the women of the village, based on her sympathy, in the strict

sense, for the rural community as a whole. Put simply, she became a villager. One result is this extraordinarily fine, sensitive and convincing monograph.

The book consists of a detailed description and analysis of the physical situation, namely, the village, the houses, their contents (especially the agricultural produce), the rural territory, the grindingly hard cycle of agricultural work; then follows analysis of the relationships of the people, as individuals (though individualism as such has little place, since long-established male and female roles define nearly all behaviour patterns), in marriage (especially through the dowry and inheritance systems), as families and as kin groups. Complete dedication to the maintenance and increase of the *oikos*, that is the ancestral land and house and the family line, is particularly apparent. But overriding the social analysis are the religious (Orthodox) motivations which the writer convincingly sees (especially chapter 3) informing almost every aspect of behaviour and action, above all in the appreciation (chapter 5) that men, possessing intelligence and logicity, 'have a natural association with the sacred world, women with that of the demons'.

Herein lies a twofold value for anyone interested in the Mediterranean past. Archaeologists may with humility see how complex and subtle are the spiritual and behavioural patterns which actually create a set of physical circumstances, for example a pattern of land use and division, or a household assemblage or a village plan. Social and economic historians of the early Aegean, while not forgetting the problems of cultural continuity (Alexiou, *Journal of Hellenic Studies*, xcii, 1972, 258-9) or of typicality (how far is this village representative?), will nevertheless have little difficulty in sensing the Homeric situation of honour and shame (pp. 107-9), and of the principle of reciprocal exchanges, the dominance of roles and the prime importance of the *oikos* (cf. Finley, *The world of Odysseus* and Willetts, *Aristocratic society in Ancient Crete*), and in finding the world of Solon in the causes of the widening gap between rich and poor, the growth of debt and the enforced loss of land (p. 243), or in observing the ancient constants of the importance of dowries and the system of equal inheritance and the effect of both on the fragmentation of land.

The village of Ambeli (the authoress's pseudonym) is dying rapidly. Emigration from it into an urban Greek world of more attractive

Daniels Jr.,2013-09-10 Readers of the Gospels are typically attuned to the words of Jesus while paying comparatively little attention to what other characters in the narratives say about him This innovative study of John s Gospel looks at the text through the lens of a routinely misunderstood mode of speech namely gossip Focusing on talk about Jesus in John the author unpacks the intricate relationship between gossip and various social dynamics of Jesus world demonstrating how they collude to construct Jesus identity Ultimately it is suggested that John presents a Jesus whose identity is elusive to both outsiders like the Pharisees and insiders like his disciples and thus models the importance if not the sheer necessity of the ongoing public discourse around the question Who is Jesus *Journal of the Anthropological Society of Oxford* Anthropological Society of Oxford,Oxford University Anthropological Society,1975 **Orality and Literacy in Early Christianity** Pieter Botha,2012-11-01 The history of the Jesus movement and earliest Christianity requires careful attention to the characteristics and peculiarities of oral and literate traditions Understanding the distinctive elements of Greco Roman literacy potentially has profound implications for the historical understanding of the documents and events involved Concepts such as media criticism orality manuscript culture scribal writing and performative reading are explored in these chapters The scene of Greco Roman literacy is analyzed by investigating writing and reading practices These aspects are then related to early Christian texts such as the Gospel of Mark and sections from Paul s letters *The New Testament in Cross-Cultural Perspective* Richard L. Rohrbaugh,2006-10-15 The Bible is not a Western book and the world of the New Testament is not our world The New Testament world was preindustrial Mediterranean and populated mostly by nonliterate peasants who depended on hearing these writings read aloud Only a few of the literate elite were part of the Jesus movement and they knew nothing of either modernity or the Western culture we inhabit today This means that for all North Americans reading the New Testament is always an exercise in cross cultural communication Travelers diplomats and exchange students take great pains to bridge the cultural gaps that cloud mutual understanding But North American readers habitually suspend cross cultural awareness when encountering the Bible The result is that we unwittingly project our own cultural understandings onto the pages of the New Testament Rohrbaugh argues that to whatever degree we can bridge cultural gaps between ourselves and New Testament writers we learn to value their intentions rather than the meanings we create from their words Rohrbaugh s insightful interpretations of Gospel passages go a long way toward helping to span distances between the New Testament world and the present **Journal of the Anthropological Society of Oxford** ,1975 Critical Times in Greece Dimitris Dalakoglou,Georgios Agelopoulos,2017-10-20 This volume brings together new anthropological research on the Greek crisis With a number of contributions from academics based in Greece the book addresses a number of key issues such as the refugee crisis far right extremism and the psychological impact of increased poverty and unemployment It provides much

needed ethnographic contributions and critical anthropological perspectives at a key moment in Greece's history and will be of great interest to researchers interested in the social political and economic developments in southern Europe It is the first collection to explore the impact of this period of radical social change on anthropological understandings of Greece

Gossip and Gender Marianne Bjelland Kartzow, 2009-12-15 This book suggests that gossip can be used as an interpretive key to understand more of early Christian identity and theology Insights from the multi disciplinary field of gossip studies help to interpret what role gossip plays especially in relation to how power and authority are distributed and promoted A presentation of various texts in Greek Hebrew and Latin shows that the relation between gossip and gender is complex to gossip was typical for all women and risky for elite men who constantly had to defend their masculinity Frequently the Pastoral Epistles connect gossip to false teaching as an expression of deviance On several occasions it is argued that various categories of women have to avoid gossip to be entrusted duties or responsibilities Old wives tales are associated with heresy contrasted to godliness in which one had to train one self Other passages clearly suggest that the false teaching resembles feminine gossip by use of metaphorical language profane words will spread fast and uncontrolled like cancer what the false teachers say is tickling in the ear and their mouth must be stopped or silenced The Pastoral Epistles employ terms drawn from the stereotype of gossip as rhetorical devices in order to undermine the masculinity and hence the authority of the opponents
