**A Cultural History of Hair in the Renaissance** Edith Snook,2020-12-10 In the period 1450 to 1650 in Europe hair was braided curled shaped cut colored covered decorated supplemented removed and reused in magic courtship and art amongst other things On the body Renaissance men and women often considered hair a signifier of order and civility Hair style and the head coverings worn by many throughout the period marked not only the wearer s engagement with fashion but also moral religious social and political beliefs Hair established individuals positions in the period s social hierarchy and signified class gender and racial identities as well as distinctions of age and marital and professional status Such a meaningful part of the body however could also be disorderly

when it grew where it wasn't supposed to or transgressed the body's boundaries by being wild, uncovered, unpinned, or uncut. A natural material with cultural import, hair weaves together the Renaissance histories of fashion, politics, religion, gender, science, medicine, art, literature, and material culture. A necessarily interdisciplinary study, *A Cultural History of Hair in the Renaissance* explores the multiple meanings of hair as well as the ideas and practices it inspired. Separate chapters contemplate Religion and Ritualized Belief, Self and Society, Fashion and Adornment, Production and Practice, Health and Hygiene, Sexuality and Gender, Race and Ethnicity, Class and Social Status, and Cultural Representations. *Widowhood in Early Modern Spain* Stephanie Fink De Backer, 2010-11-26 Based on clerical ideals of female comportment and Golden Age playwrights' fixation on questions of honor, modern scholarship whether historical or literary has viewed women as subjects and objects of patriarchal control. This study analyzes tensions and contradictions produced by the interplay of patriarchal norms and the realities of widows' daily lives to demonstrate that in Castile patriarchy did not exist as a monolithic force which rigidly enforced an ideology of female incapacity. The extensive analysis of archival documents shows widows actively engaged in their families and communities, confounding images of their reclusion and silence. Widows' autonomy and authority were desirable attributes that did not collide with the demands of a society that recognized the contingent nature of patriarchal norms. *Maria de Zayas Tells Baroque Tales of Love and the Cruelty of Men* Margaret Greer, 2011-11-30 Maria de Zayas y Sotomayor 1590-1650 published two collections of novellas: *Novelas amorosas y exemplares* 1637 and *Desengaños amorosos* 1647, which were immensely popular in her day. During the nineteenth and early twentieth centuries, Victorian and bourgeois sensibilities exiled her scandalous works to the outer fringes of serious literature. Over the last two decades, however, she has gained an enthusiastic and ever-expanding readership, drawing intense critical attention and achieving canonical status as a major figure of the Spanish Golden Age. In this first comprehensive study of Zayas's prose, Margaret R. Greer explores the relationship between narration and desire, analyzing both the desire for readers displayed by Zayas in her Prologue and the sexual desire that drives the telling within the novellas themselves. Greer examines Zayas's narrative strategies through the twin lenses of feminist and psychoanalytic theory. She devotes close attention to the weight of Renaissance literary traditions and the role of Zayas's own cultural context in shaping her work. She discusses Zayas's biography and the reception of her publications, her advocacy of women's rights, her conflictive loyalty to an aristocratic patriarchal order, her crafting of feminine tales of desire, and her erasure of the frontiers between the natural and supernatural, indeed between love and death itself. In so doing, Greer offers an expansive analysis of this recently rediscovered Golden Age writer. *Mediating Fictions* Jean Dangler, 2001-03 *Mediating Fictions* examines the variety of strategies that these authors use to deprecate women healers and, in the process, to create early modern others to whom the ideal male physician could be contrasted. *Spill*, *La Celestina*, and *La Lozana andaluza* all attempt to dissuade their readers from seeking the healing service of ordinary women.
