Portrait of Cambridge Charles Richard Benstead,1968      A Portrait of Cambridge Dagur Gunnarsson,2005      *Portrait of Cambridge* C. R. Benstead,2011-10-28 The story of Cambridge is one of curious conflict an unrelenting struggle for independence by a squalid fenland settlement which entirely changed its purpose as down the centuries a great University grew in its midst Yet it was this unwelcome intruder seen today as an island of ancient glory in a surge of modern expansion that makes the City of Cambridge known to the world The coming of the clerks the early hostels and colleges the problem of the King s Ditch the limitations of a medieval education and of learning itself until recent years the rod and its application the tremendous religious emphasis and compulsion that endured until the last century the dissolution of the religious houses the Reformation and its martyrs the threats to the University s very existence Cambridge and Cromwell himself a pensioner of Sidney Sussex the seemingly unending strife between town and gown and the hazardous office of Mayor the unending procession of poets and scientists headed by Milton and Newton and of great men in every walk of life the colleges and their independence in the modern age of reform not least in architecture and even the tidal phenomenon of the undergraduates hair once restricted by clerical tonsure it is in terms of these factors grave and gay that the story of Cambridge is told

Body and Face in Chinese Visual Culture Hung Wu, Katherine R. Tsiang, 2020-03-17 Traditionally the Chinese body was

approached as a totality and explained by sweeping comparisons of the differences that distinguished Chinese examples from their Western counterparts Recently scholars have argued that we must look at particular examples of Chinese images of the body and explore their intrinsic conceptual complexity and historical specificity The twelve contributors to this volume adopt a middle position They agree that Chinese images are conditioned by indigenous traditions and dynamics of social interaction but they seek to explain a general Chinese body and face by charting multiple specific bodies and faces All of the chapters are historical case studies and investigate particular images such as Han dynasty tomb figurines Buddhist texts and illustrations pictures of deprivation illness deformity and ghosts clothing formal portraiture and modern photographs and films From the diversity of art forms and historical periods studied there emerges a more complex picture of ways that the visual culture of the body and face in China has served to depict the living memorialize the dead and present the unrepresentable in art
