**Dickinson and Audience** Martin Orzeck, Robert Weisbuch, 1996 An obsessively private writer Emily Dickinson almost never submitted poems for publication which she deemed the Auction Of the Mind Yet over a century of criticism has established what readers of various sensibilities describe as a shockingly intimate relation between text and audience making the question of whom the poems address a crucial element in interpreting them This volume of essays is the first book exclusively focused on Dickinson s relation to audience from the relatively few persons who received many of the poems to that vast unseen yet somehow specific other that any literary work addresses Dickinson s writings were influenced by her ambivalent attitude toward the conventions of the nineteenth century literary marketplace and her desire to shape more intimate relations with chosen contemporaries Still her poems and letters engage modern readers and speak to the social and gendered politics of our own day The essays in Dickinson and Audience treat both the importance of Dickinson s personal friendships and the ways in which contemporary poetics continue to sustain the vitality of her writings With contributions from Willis J Buckingham Karen Dandurand Betsy Erkkila Virginia Jackson Charlotte Nekola Martin Orzeck David Porter Robert Regan Richard B Sewall R McClure Smith Stephanie A Tingley and Robert Weisbuch the collection boasts a wide variety of critical approaches to the poet and her works from traditional biographical and historical analyses to deconstructionist feminist and reader response interpretations It will interest not only scholars in these areas but also anyone who wants to gain insight into Dickinson s creative genius

**The Portrait's Subject** Sarah Blackwood, 2019-10-22 Between the invention of photography in 1839 and the end of the nineteenth century portraiture became one of the most popular and common art forms in the United States In *The Portrait's Subject* Sarah Blackwood tells a wide ranging story about how images of human surfaces came to signal expressions of human depth during this era in paintings photographs and illustrations as well as in literary and cultural representations of portrait making and viewing Combining visual theory literary close reading and archival research Blackwood examines portraiture's changing symbolic and aesthetic practices from daguerreotype to X ray Portraiture the book argues was a provocative art form used by writers artists and early psychologists to imagine selfhood as hidden deep and in need of

revelation ideas that were then taken up by the developing discipline of psychology The Portrait s Subject reveals the underappreciated connections between portraiture s representations of the material human body and developing modern ideas about the human mind It encouraged figures like Frederick Douglass Nathaniel Hawthorne Thomas Eakins Harriet Jacobs and Henry James to reimagine how we might see inner life offering a rich array of metaphors and aesthetic approaches that helped reconfigure the relationship between body and mind exterior and interior In the end Blackwood shows how nineteenth century psychological discourse developed as much through aesthetic fabulation as through scientific experimentation
