Brown, 2019-03-15 Cynthia J Brown explains why the advent of print in the late medieval period brought about changes in relationships among poets patrons and printers which led to a new conception of authorship Examining such paratextual elements of manuscripts as title pages colophons and illustrations as well as such literary strategies as experimentation with narrative voice Brown traces authors attempts to underscore their narrative presence in their works and to displace patrons from their role as sponsors and protectors of the book Her accounts of the struggles of poets including Jean Lemaire Jean Bouchet Jean Molinet and Pierre Gringore over the design printing and sale of their books demonstrate how authors secured the status of literary proprietor during the transition from the culture of script and courtly patronage to that of print capitalism     **Authorial Personality and the Making of Renaissance Texts** Douglas S. Canones: The Art of Harmony Alessandro Bausi, Bruno Reudenbach, Hanna Wimmer, 2020-11-23 The so called Canon Tables of the Christian Gospels are an absolutely remarkable feature of the early late antique and medieval Christian manuscript cultures of East and West the invention of which is commonly attributed to Eusebius and dated to first decades of the fourth century AD Intended to host a technical device for structuring organizing and navigating the Four Gospels united in a single codex and in doing so building upon and bringing

to completion previous endeavours the Canon Tables were apparently from the beginning a highly complex combination of text numbers and images that became an integral and fixed part of all the manuscripts containing the Four Gospels as Sacred Scripture of the Christians and can be seen as exemplary for the formation development and spreading of a specific Christian manuscript culture across East and West AD 300 and 800 In the footsteps of Carl Nordenfalk's masterly publication of 1938 and few following contributions this book offers an updated overview on the topic of Canon Tables in a comparative perspective and with a precise look at their context of origin their visual appearance their meaning function and their usage in different times domains and cultures

**"The" Athenaeum**, 1898 History's Beauties Lara Perry, 2006 The beauties women of note who were welcomed to the National Portrait Gallery's early collection were those whose lives and portraits were recognized as significant to the civil ecclesiastical and literary history of the nation This brief was interpreted to include figures as diverse as the devout Lady Margaret Beaufort and the entertaining Lady Emma Hamilton History's Beauties the first detailed study of this collection maps a culture of femininity that reframes the Victorian fascination with women's domestic and sentimental presence by locating it within a Parliament centred national culture

**The Reinvention of Obscenity** Joan DeJean, 2002-06 The concept of obscenity is an ancient one But as Joan DeJean suggests its modern form the same version that today's politicians decry and savvy artists exploit was invented in seventeenth century France The Reinvention of Obscenity casts a fresh light on the mythical link between sexual impropriety and things French Exploring the complicity between censorship print culture and obscenity DeJean argues that mass market printing and the first modern censorial machinery came into being at the very moment that obscenity was being reinvented that is transformed from a minor literary phenomenon into a threat to society DeJean's principal case in this study is the career of Molière who cannily exploited the new link between indecency and female genitalia to found his career as a print author the enormous scandal which followed his play *Lecole des femmes* made him the first modern writer to have his sex life dissected in the press Keenly alert to parallels with the currency of obscenity in contemporary America The Reinvention of Obscenity will concern not only scholars of French history but anyone interested in the intertwined histories of sex publishing and censorship

**Printing the Middle Ages** Sian Echard, 2013-09-25 In *Printing the Middle Ages* Sian Echard looks to the postmedieval postmanuscript lives of medieval texts seeking to understand the lasting impact on both the popular and the scholarly imaginations of the physical objects that transmitted the Middle Ages to the English speaking world Beneath and behind the foundational works of recovery that established the canon of medieval literature she argues was a vast terrain of books scholarly or popular grubby or beautiful widely disseminated or privately printed By turning to these we are able to chart the differing reception histories of the literary texts of the British Middle Ages For Echard any reading of a medieval text whether past or present amateur or academic floats on the surface of a complex sea of expectations and desires made up of the books that mediate those readings Each chapter of *Printing the Middle Ages* focuses on a central textual object and tells its story in order to

reveal the history of its reception and transmission Moving from the first age of print into the early twenty first century Echard examines the special fonts created in the Elizabethan period to reproduce Old English the hand drawn facsimiles of the nineteenth century and today s experiments with the digital reproduction of medieval objects she explores the illustrations in eighteenth century versions of Guy of Warwick and Bevis of Hampton she discusses nineteenth century children s versions of the Canterbury Tales and the aristocratic transmission history of John Gower s Confessio Amantis and she touches on fine press printings of Dante Froissart and Langland
