Portraits From The Belly Of The Whale:

Portraits from the Belly of the Whale Michael Garlington, 2005 Garlington's images shimmer and flicker lighting a pathway to an absurd land of dreams 100 fantastical portraits which subvert reality Garlington's eye is unsparing yet his images also convey a wry compassion for the outcast His images are more than mere portraits of the bizarre as he simultaneously dissects and embraces his subjects as fellow pilgrims Some of the images in this book come from cross country excursions in Photo Car a sedan Garlington covered with samples of his work The car served as a magnet and an ice breaker to draw subjects to his lens

Portraits David Patterson, 2021-06-01 Elie Wiesel identified himself as a Vizhnitzer Hasid who was above all things a witness to the testimony and teaching of the Jewish tradition at the core of the Hasidic tradition While he is well known for his testimony on the Holocaust and as a messenger to humanity he is less well known for his engagement with the teachings of Jewish tradition and the Hasidic heritage that informs that engagement Portraits illuminates Wiesel's Jewish teachings and the Hasidic legacy that he embraced by examining how he brought to life the sages of the Jewish tradition David Patterson reveals that Wiesel's Hasidic engagement with the holy texts of the Jewish tradition does not fall into the usual categories of exegesis or hermeneutics and of commentary or textual analysis Rather he engages not the text but the person the teacher and the soul This book is a summons to remember the testimony reduced to ashes and the voices that cry out from those ashes Just as the teaching is embodied in the teachers so is the tradition embodied in their portraits

Beautiful Whale Bryant Austin, 2018-06-05 DIVPhotographer and conservationist Bryant Austin's breathtaking photographic project Beautiful Whale is the first of its kind It chronicles his fearless attempts to reach out to whales as fellow sentient beings Featuring Austin's intimate images some as detailed as a single haunting eye that result from encounters based on mutual trust Beautiful Whale captures the grace and intelligence of these magnificent creatures Austin spent days at a time submerged motionless in the waters of remote spawning grounds waiting for humpback sperm and minke whales to seek him out As oceanographer Sylvia

A Earle says in her foreword to the book *As an ambassador from the ocean and to the ocean* Bryant Austin is not only a source of inspiration He is cause for hope Praise for Beautiful Whale You can't help thinking with every passing page that this is what it's like to swim with the whales *The Wall Street Journal* div *Pictures of Travel in the South of France* Alexandre Dumas, 1859 Although not as well known as his adventure novels or historical fiction Dumas travel writings were the most successful of his non-fiction works

Building the Body of Christ Daniel C. Cochran, 2020-11-17 In *Building the Body of Christ* Daniel C Cochran argues that monumental Christian art and architecture played a crucial role in the formation of individual and communal identities in late antique Italy The ecclesiastical buildings and artistic programs that emerged during the fourth and fifth centuries not only reflected Christianity's changing status within the Roman Empire but also actively shaped those who used them Emphasizing the importance of materiality and the body in early Christian thought and practice Cochran shows how bishops and their supporters employed the visual arts to present a Christian identity rooted in the sacred past but expressed in the present through church unity and episcopal authority He weaves together archaeological and textual evidence to contextualize case studies from Rome Aquileia and Ravenna showing how these sites responded to the diversity of early Christianity as expressed through private rituals and the imperial appropriation of the saints Cochran shows how these early ecclesiastical buildings and artistic programs worked in conjunction with the liturgy to persuade individuals to adopt alternative beliefs practices and values that contributed to the formation of institutional Christianity and the Christianization of late antique Italy
