## Portraits By John:

*An Exact Likeness* Prof. Richard P. Heitzenrater, 2016-04-05 Faces are more than a montage of organs that see breathe speak hear eat sing smell and yell As Josephine Tey points out in her mystery novel *The Daughter of Time* the slant of an eyebrow the set of a mouth the look of the eye the firmness of a chin often can provide evidence of character that is as telling as a report card or a police blotter Those features depicted on portraits of individuals can be equally telling of the person's inner nature or perhaps of what the artist thinks or wants the viewer to think about the person being portrayed Sometimes a portrait might be even more useful than a biography While examining these portraits the author considers three questions what was Wesley's attitude toward the portrait if any how did the public respond to these portrayals and what was the artist attempting to convey This book focuses on the main portraits and their derivatives looking at them within the three main categories that developed over the years Oxford don Methodist preacher and notable person Although these types seemed to arise in chronological order there is some overlap between categories especially toward the end of Wesley's life and beyond
