Rhetoric And Educational Discourse:

Rhetoric and Educational Discourse Richard Edwards, Katherine Nicoll, Nicky Solomon, Robin Usher, 2013-02-01
Educational policy is often dismissed as simply rhetoric and a collection of half truths However this is to underestimate the power of rhetoric and the ways in which rhetorical strategies are integral to persuasive acts Through a series of illustrative chapters this book argues that rather than something to be dismissed rhetorical analysis offers a rich and deep arena in which to explore and examine educational issues and practices It adopts an original stance in relation to contemporary debates and will make a significant contribution to educational debates in elucidating and illustrating the pervasiveness of persuasive strategies in educational practices Rhetoric and Educational Discourse is a useful resource for postgraduate and research students in education and applied linguistics The book will also be of interest to academics and researchers in these fields of study and those interested in discursive approaches to research and scholarship Discourses of Denial Thomas Discenna, 2017-09-22 Discourses of Denial explores the myriad ways that the labor of those employed by universities is situated as somehow distinct from ordinary labor Focusing on a variety of sites where academic labor is discursively constructed in popular consciousness including among the professoriate itself its critics and detractors the unionization struggles of graduate students the invisibility of contingent academics and the resistance to the unionization of student athletes Merging Critical Rhetoric CR with Critical Discourse Analysis CDA this study examines myth that academic work is not the same as other labor Pason 2011 p 1786 The denial of academic labor functions to underwrite an attack on labor in all of its variations producing what Berardi 2009 calls a new kind of worker who values labor as the most interesting part of his or her life and therefore no longer opposes the prolongation of the working day but is actually ready to lengthen it out of personal choice and will p 79 The professoriate is therefore not a retrograde figure of more genteel times but the emblematic figure of late capitalism's transition to cognitive labor and with it an unceasing colonization of the human lifeworld

Rhetoric and the Republic Mark Garrett Longaker, 2007 Casts a revealing light on modern cultural conflicts through the lens of rhetorical education Contemporary efforts to revitalize the civic mission of higher education in America have revived an age old republican tradition of teaching students to be responsible citizens particularly through the study of rhetoric composition and oratory This book examines the political cultural economic and religious agendas that drove the various and often conflicting curricula and contrasting visions of what good citizenship entails Mark Garrett Longaker argues that higher education more than 200 years ago allowed actors with differing political and economic interests to wrestle over the fate of American citizenship Then as today there was widespread agreement that civic training was essential in higher education but there were also sharp differences in the various visions of what proper republic citizenship entailed and how to prepare for it Longaker studies in detail the specific trends in rhetorical education offered at various early institutions such as Yale Columbia Pennsylvania and William and Mary with analyses of student lecture notes classroom activities disputation

exercises reading lists lecture outlines and literary society records These documents reveal an extraordinary range of economic and philosophical interests and allegiances agrarian commercial spiritual communal and belletristic specific to each institution The findings challenge and complicate a widely held belief that early American civic education occurred in a halcyon era of united democratic republicanism Recognition that there are multiple ways to practice democratic citizenship and to enact democratic discourse historically as well as today best serves the goal of civic education Longaker argues *Rhetoric and the Republic* illuminates an important historical moment in the history of American education and dramatically highlights rhetorical education as a key site in the construction of democracy *Constructing Rhetorical Education* Davida Charney, Wilma R. Ebbitt, 1992 In nineteen essays illustrating its many aspects this book offers an argument for what it takes to construct a complete rhetorical education The editors take an approach that is pragmatic and pluralistic based as it is on the assumptions that a rhetorical education is not limited to teaching freshman composition or any specific writing course and that the contexts in which such an education occurs are not limited to classrooms This thought provoking volume stresses that while a rhetorical education results in the growth of writing skills its larger goal is to foster critical thinking

Rhetorical Education In America Cheryl Jean Glenn, 2009-03-15 A timely collection of essays by prominent scholars in the field on the past present and future of rhetoric instruction From Isocrates and Aristotle to the present rhetorical education has consistently been regarded as the linchpin of a participatory democracy a tool to foster civic action and social responsibility Yet questions of who should receive rhetorical education in what form and for what purpose continue to vex teachers and scholars The essays in this volume converge to explore the purposes problems and possibilities of rhetorical education in America on both the undergraduate and graduate levels and inside and outside the academy William Denman examines the ancient model of the citizen orator and its value to democratic life Thomas Miller argues that English departments have embraced a literary research paradigm and sacrificed the teaching of rhetorical skills for public participation Susan Kates explores how rhetoric is taught at nontraditional institutions such as Berea College in Kentucky where Appalachian dialect is espoused Nan Johnson looks outside the academy at the parlor movement among women in antebellum America Michael Halloran examines the rhetorical education provided by historical landmarks where visitors are encouraged to share a common public discourse Laura Gurak presents the challenges posed to traditional notions of literacy by the computer the promises and dangers of internet technology and the necessity of a critical cyber literacy for future rhetorical curricula Collectively the essays coalesce around timely political and cross disciplinary issues *Rhetorical Education in America* serves to orient scholars and teachers in rhetoric regardless of their disciplinary home and help to set an agenda for future classroom practice and curriculum design **Conversational Rhetoric** Jane Donawerth, 2012 In *Conversational Rhetoric* Jane Donawerth traces the historical development of rhetorical theory by women for women studying the moments when women produced theory about the arts of communication in alternative genres humanist treatises and dialogues

defenses of women's preaching conduct books and elocution handbooks Refiguring Rhetorical Education Jessica Enoch, 2008-05-16 *Refiguring Rhetorical Education* Women Teaching African American Native American and Chicano a Students 1865-1911 examines the work of five female teachers who challenged gendered and cultural expectations to create teaching practices that met the civic and cultural needs of their students The volume analyzes Lydia Maria Child's *The Freedmen's Book* a post-Civil War educational textbook for newly freed slaves Zitkala's autobiographical essays published in the *Atlantic Monthly* in 1900 that questioned the work of off-reservation boarding schools for Native American students and Jovita Idar Marta Pe'a and Leonor Villegas de Magnán's contributions to the Spanish language newspaper *La Crónica* in 1910 and 1911 contributions that offered language and cultural instruction their readers could not receive in Texas public schools Author Jessica Enoch explores the possibilities and limitations of rhetorical education by focusing on the challenges that Child Zitkala Idar Pe'a and Villegas made to dominant educational practices Each of these teachers transformed their seemingly apolitical occupation into a site of resistance revising debilitating educational methods to advance culture-based and politicized teachings that empowered their students to rise above their subjugated positions *Refiguring Rhetorical Education* considers how race culture power and language are both implicit and explicit in discussions of rhetorical education for marginalized students and includes six major tenets to guide present-day pedagogies for civic engagement

The Cultivation of Character and Culture in Roman Rhetorical Education Anthony Edward Zupancic, 2023-08-04 At its very center *The Cultivation of Character and Culture in Roman Rhetorical Education* The Available Means is a study of the subtle organic ways that rhetoric can work to cultivate a particular character This is an extension of the current work in composition studies which focus on the ways that writing instruction contributes to the development of individual power and agency in students combined with an ancient understanding of the ways that students learned to act within a particular accepted cultural framework It recognizes and reclaims a lost dimension of rhetoric a dimension that is conceptually linked to the martial culture of the ancient world to show how ancient rhetorical theory framed the discipline as an education in thinking speaking and acting in ways that were necessary to be both a persuasive speaker and an effective leader Through close readings and analysis of particular rhetorical exercises the book shows how rhetorical education shaped characters that were appropriate in the eyes of the dominant culture but were also capable of working independently to progressively alter that culture In showing the ways that rhetorical education shaped a particular character the book demonstrates the ways that the combination character culture and virtue are vital to leadership in any time *The Rhetoric of Reason* James Crosswhite, 2012-11 Responding to skeptics within higher education and critics without James Crosswhite argues powerfully that the core of a college education should be learning to write a reasoned argument A trained philosopher and director of a university-wide composition program Crosswhite challenges his readers teachers of writing and communication philosophers critical theorists and educational administrators to reestablish the traditional role of rhetoric in education To those who have

lost faith in the abilities of people to reach reasoned mutual agreements and to others who have attacked the right or wrong model of formal logic this book offers the reminder that the rhetorical tradition has always viewed argumentation as a dialogue a response to changing situations an exchange of persuading listening and understanding Crosswhite s aim is to give new purpose to writing instruction and to students writing to reinvest both with the deep ethical interests of the rhetorical tradition In laying out the elements of argumentation for example he shows that claiming questioning and giving reasons are not simple elements of formal logic but communicative acts with complicated ethical features Students must learn not only how to construct an argument but the purposes responsibilities and consequences of engaging in one Crosswhite supports his aims through a rhetorical reconstruction of reason offering new interpretations of Plato and Aristotle and of the concepts of reflection and dialogue from early modernity through Hegel to Gadamer And in his conclusion he ties these theoretical and historical underpinnings to current problems of higher education the definition of the liberal arts and especially the teaching of written communication

Rhetoric and the Global Turn in Higher Education Christopher Minnix, 2018-03-09 This book studies the role of rhetoric in the expansive movement for global higher education in U S colleges and universities Drawing on an analysis of how discourses of security economy and ethics shape the rhetoric of global higher education as well as that of its populist and nationalist critics the author argues for an understanding of global higher education as a site of rhetorical conflict over visions of students as citizens In doing so the work advances the project of transnational rhetorical education a theoretical and pedagogical project that can foster forms of rhetorical inquiry performance and ethics that equip students to pursue transnational forms of civic engagement belonging and resistance This book will be of interest to scholars and students in the fields of rhetoric and composition studies communication and education as well as to faculty and administrators working in global higher education or internationalization programs
