Symphosius The Aenigmata T. J. Leary,2014-03-27 The post classical compilation known to modern scholarship as the Latin Anthology contains a collection of a hundred riddles each consisting of three hexameters and preceded by a lemma It would seem from the preface to this collection that they were composed extempore at a dinner to celebrate the Roman Saturnalia The work was to have a defining influence on later collections of riddles yet its title probably the Aenigmata has been debated and almost nothing is known about its author questions have even been asked about his name Symphosius and date 4th 5th centuruy AD In this edition of the riddles the Introduction discusses the work s title and its author s identity as well as his name and date it considers his national origin North African and intellectual background a professional grammarian and argues that he was not Christian as has been suggested It examines the Saturnalian background to the work setting it in its sociological context and discusses the author s literary debts especially to Martial The Introduction also explores the author s ordering and arrangement of the riddles discusses his literary style Latinity and metre and comments briefly on his Nachleben It concludes with a survey of the textual tradition The commentary on each riddle includes a translation general notes on the object it describes with reference as necessary to museums and artefacts and discussion of how it fits into the ordering of the collection of variant readings and with suitable illustration of literary stylistic and metrical considerations Other areas such as history and mythology are also covered where relevant

Frustrating Flowers and Puzzling Plants John M. Warren,2024-01-09 If you have tried to identify wildflowers you ll already know exactly what is meant by the title of this book Although a lot of plants are relatively straightforward to recognise many others are not Standard wildflower guides tend to provide as much guidance with identifying the easy and distinctive as they do with complex tricky species This ingenious book is designed to come to the rescue of the exasperated novice botanist and to help those more experienced who might be stuck on unfamiliar and complex groups From willows to water crowfoots from eyebrights to dandelion look a likes all of us have struggled with baffling specimens or the seemingly cryptic Presented here is a fresh new approach to identifying difficult plants by giving an

understanding of the biology behind their complexity In simple language you will be directed to the particular parts of the plant that you need to look at most closely The tabular keys are more user friendly and evolutionarily valid than conventional dichotomous keys which are often confusing and unwieldy Each chapter contains illustrations of key diagnostic features rather than of entire plants Other novel aspects include coverage of the historical recognition of complexity within each group which is used to inform debate about the level of resolution that may be most appropriate for your needs This accessible guide is the perfect chance to get to grips with that challenging group you keep saving for next year or for untangling a botanical mystery which keeps repeating itself **New Zealand Farmer Weekly** ,1917 *The Exiles of Damaria* Ardath Mayhar,2017-04-19 The Ancient Race of enhanced humans in Damaria has been all but destroyed by a revolt of the New People The two survivors Riddle the Poet and his nephew young King Lute flee to the City of the Mist There they and the many other refugees plan to build a great ship to ferry them to safety in the Western Isles where some of their kin remain But the evil worm Dinorm their old enemy is not finished with them yet The longest and best realized of all of Ardath Mayhar s epic fantasies the first half of which was previously published as *Riddles Dreams* *Prince Amabel : Or, The Fairy Roses* William Brough,1862 **The Riddles of the Exeter Book** Frederick Tupper,1910 **My Souvenir: Or Poems; with Translations &c** Caroline De Crespigny,1844 *Amy Herbert, by a lady, ed. by W. Sewell* Elizabeth Missing Sewell,1844 **The Life and Adventures of Jack of the Mill, Commonly Called Lord Othmill ... A Fire-side Story** William Howitt,1844 **The Prairie-bird** Sir Charles Augustus Murray,1844
