Secrets of the Mind A.G. Cairns-Smith, 2012-12-06 How can we reconcile Shakespeare's account of human behavior and that of modern brain science? That's the central question addressed by the noted Glasgow chemist A.G. Cairns-Smith in this provocative, witty, and highly accessible discussion of consciousness, free will, and science. Written in a conversational style, *Secrets of the Mind* is not only a splendid introduction for the general reader to the central questions of consciousness and brain science but a contribution to answering some of them. In the author's view, our feelings and sensations are not simply alternative descriptions of neural events but have themselves evolved and have physical effects in the brain as well as physical causes. In *Secrets of the Mind*, we arrive at a vision of the world as it may come to be seen by a future science. Sand, sea, water, air, and the atoms from which such materials are made are now well understood by science. These elements of our world, physicists and chemists tell us, are different forms of quantum energy. But what of our personal feelings, our sensations, and emotions? Science tells us that these too must be forms of quantum energy if they evolved. But science is only beginning to explain how.

Teachings from the 51st Kopan Meditation Course: Lamrim Teachings from Kopan 2018 Lama Zopa Rinpoche, 2025-02-20 From December 6-18, 2018, Lama Zopa Rinpoche taught the students of the fifty-first Kopan course, the one-month intensive lamrim course given each year at Kopan Monastery, Kathmandu, the principal monastery of the FPMT. This ebook presents twelve lectures given by Lama Zopa Rinpoche during this meditation course. In the teachings, Rinpoche gives an overview of the path to enlightenment and explains that the antidote to the sufferings of samsara is meditation on emptiness. The meditation course concluded with a Vajrasattva initiation on December 18. Prior to the empowerment, Rinpoche taught on Vajrasattva and explained how to purify our negative karma. Rinpoche also discusses the importance of developing the good heart and advises that with this precious human life, we have a rare opportunity to practice Dharma and actualize the path. Other vital subjects covered in this course include the kindness of the mother, the ultimate nature of the mind, the twelve links, and the Wheel of Life. These teachings were simultaneously transcribed and then edited by Ven. Joan Nicell and simultaneously checked for errors by Tania Duratovic and Laura Haughey. They have been subsequently lightly edited by Gordon McDougall.
