Economics Gary E. Clayton, 2008 **Ernst Mach - Life, Work, Influence** Friedrich Stadler, 2019-09-13 This edited volume features essays written in honor of Ernst Mach. It explores his life, work, and legacy. Readers will gain a better understanding of this natural scientist and scholar who made major contributions to physics, the philosophy of science, and physiological psychology. The essays offer a critical inventory of Mach's lifework in line with state-of-the-art research and historiography. It begins with physics where he paved the way for Einstein's Theory of Relativity. The account continues with Mach's contributions in biology, psychology, and physiology, pioneering with an empiricist and Gestalt analysis of sensations. Readers will also discover how in the philosophy of science he served as a model for the Vienna Circle with the Ernst Mach Society, as well as paved the way for an integrated history and theory of science. Indeed, his influence extends far beyond the natural sciences to the Vienna Medical School and psychoanalysis (R. B. R. ny J. Breuer, S. Freud) to literature (Jung, Wien, R. Musil) to politics (F. Adler, Austro-Marxism) and the Viennese adult education to arts between Futurism and Minimal Art, as well as to social sciences between the liberal school (J. Schumpeter, F. A. von Hayek) and empirical social research (P. Lazarsfeld, M. Jahoda).

Reading Feminist Theory Susan Archer Mann, Ashly Suzanne Patterson, 2016 Reading Feminist Theory: From Modernity to Postmodernity interweaves classical and contemporary writings from the social sciences and the humanities to represent feminist thought from the late eighteenth century to the present. Editors Susan Archer Mann and Ashly Suzanne Patterson pay close attention to the multiplicity and diversity of feminist voices, visions, and vantage points by race, class, gender, sexuality, and global location. Along with more conventional forms of theorizing, this anthology points to multiple sites of theory production, both inside and outside of the academy, and includes personal narratives, poems, short stories, zines, and even music lyrics. Offering a truly global perspective, the book devotes three chapters and more than thirty readings to the topics of colonialism, imperialism, and globalization. It also provides extensive coverage of third-wave feminism, poststructuralism, queer theory, postcolonial theory, and transnational feminisms.

Sovereign Financing and International Law Carlos Espósito, Yuefen Li, Juan Pablo Bohoslavsky, 2013-10 In response to continuing global financial turmoil, the UN Conference for Trade and Development has produced a set of principles to govern future sovereign financing. This book expands on these principles from a legal and economic perspective to analyse how sovereign financing can be regulated to prevent similar debt crises from occurring again.

Principles of Macroeconomics Susan Feigenbaum, R. W. Hafer, 2011-09-30 Feigenbaum and Hafer's innovative new text is based on the idea that economics is an integral part of students' lives. Inspired by Economics: How We Live, economist Victor Fuchs's 1983 National Book Award winner, the text provides an economic framework for exploring the wide array of choices that span a person's life cycle. The authors build from the individual to the household to the firm and then to the economy at large, moving from realistic examples from everyday life to the broad, enduring principles of economic behavior.
