President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research, M. B. Abram, 1983 **Justice and Health Care** Allen Buchanan, 2009-11-05 This volume brings together ten essays that have been published over a period of more than two decades in a wide range of venues and arranges them in such a way as to demonstrate the systematic progression of the author's thinking This volume bridges the disciplinary chasm between Bioethics and Political Philosophy *The Price of Health* G.J. Agich, C.E. Begley, 2012-12-06 Medicine morals and money have for centuries lived in uneasy cohabitation Dwelling in the social institution of care of the sick each needs the other yet each is embarrassed to admit the other's presence Morality in particular suffers embarrassment for it is often required to explain how money and medicine are not inimical Throughout the history of Western medicine morality's explanations have been consistently ambiguous Plato held that the physician must cultivate the art of getting paid as well as the art of healing for even if the goal of medicine is healing and not making money the self-interest of the craftsman is satisfied thereby 4 Centuries later a medieval medical moralist Henri de Mandeville said The chief object of the patient is to get cured the object of the surgeon on the other hand is to obtain his money 5 p 16 This incompatibility while general is not universal Throughout history medical practitioners have resolved the problem either in conscience or to their satisfaction Some physicians have been so reluctant to make a profit from the ills of those whom they treated that they preferred to live in poverty Samuel Johnson described his friend Dr Robert Levet a Practiser of Physic No summons mock'd by chill delay No petty gain disdain'd by pride The modest wants of every day The toil of every day supplied 3 **Securing Access to Health Care** United States. President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research, 1983 **Securing Access to Health Care: Report** United States. President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research, 1983 Just Health Care Norman Daniels, 1985-08 Norman Daniels examines the medical policies and health care dilemmas Theories of Rights C.L. Ten, 2017-05-15 To those who invoke them rights are powerful instruments for settling arguments in favour of the right holders But the nature provenance and justification of rights are uncertain and disputed and there are doubts about whether rights should play a distinctive and fundamental role in moral and political discourse More recent disagreements have centred on group rights and on whether rights have a universal application across different cultures and moral

traditions These and other related issues are explored in depth by the essays in this volume which are mostly drawn from a wide range of journals in philosophy politics and law *Summing Up* United States.
