Hailed by Library Journal as the greatest of Oates's novels *Wonderland* is the capstone of a magnificent literary excursion that plunges beneath the glossy surface of American life. *Wonderland* is the final novel in Joyce Carol Oates's *Wonderland Quartet*. American Women Writing Fiction Mickey Pearlman, 2014-10-17 American literature is no longer the refuge of the solitary hero. Like the society it mirrors, it is now a far richer, many-faceted explication of a complicated and diverse society, racially, culturally, and ethnically interwoven and at the same time fractured and fractious. Ten women writing fiction in America today—Toni Cade Bambara, Joan Didion, Louise Erdrich, Gail Godwin, Mary Gordon, Alison Lurie, Joyce Carol Oates, Jayne Anne Phillips, Susan Fromberg Schaeffer, and Mary Lee Settle—represent that geographic, ethnic, and racial diversity that is distinctively American. Their differing perspectives on literature and the American experience have produced Erdrich's stolid North Dakota plainswomen, Didion's sun-baked dreamers and screamers, the urban ethnics, Irish, Jewish, and black, of Gordon, Schaeffer, and Bambara, Oates's small-town, often violent neurotics, Lurie's intellectual sophisticates, and the southern survivors and victims, male and female, of Phillips, Settle, and Godwin. The ten original essays in this collection focus on the traditional themes of identity, memory, family, and enclosure that pervade the fiction of these writers. The fictional women who emerge here, as these critics show, are often caught in the interwoven strands of memory, perceive literal and emotional space as entrapping, find identity elusive and frustrating, and experience the interweaving of silence, solitude, and family in complex patterns. Each essay in this collection is followed by bibliographies of works by and about the writer in question that will be invaluable resources for scholars and general readers alike. Here is a readable critical discussion of ten important contemporary novelists who have broadened the pages of American literature to reflect more clearly the people we are.

Contemporary American Women Fiction Writers Laurie Champion, Rhonda Austin, 2002-11-30 American women writers have long been creating an extraordinarily diverse and vital body of fiction, particularly in the decades since World War II. Recent authors have benefited from the struggles of their predecessors who broke through barriers that denied women opportunities for self-expression. This reference highlights American women writers who continue to build upon the formerly male-dominated canon. Included are alphabetically arranged entries for more than 60 American women writers of diverse ethnicity who wrote or published their most significant fiction after World War II. Each entry is written by an expert contributor and includes a DBLA brief biography, a DBLA discussion of major works and themes, a DBLA survey of the writer's critical reception, and a DBLA bibliography of primary and secondary sources.

The Columbia Companion to the Twentieth-Century American Short Story Blanche H. Gelfant, 2004-04-21 Esteemed critic Blanche Gelfant's brilliant companion gathers together lucid essays on major writers and themes by some of the best literary critics in the United States. Part 1 is comprised of articles on stories that share a particular theme, such as *Working-Class Stories* or *Gay and Lesbian Stories*. The heart of the book, however, lies in Part 2, which contains more than one hundred pieces

on individual writers and their work including Fitzgerald Hemingway Richard Ford Raymond Carver Eudora Welty Andre Debus Zora Neal Hurston Anne Beattie Bharati Mukherjee J D Salinger and Jamaica Kincaid as well as engaging pieces on the promising new writers to come on the scene

Gothic Writers Douglass H. Thomson, Jack G. Voller, Frederick S. Frank, 2001-11-30 With its roots in Romanticism antiquarianism and the primacy of the imagination the Gothic genre originated in the 18th century flourished in the 19th and continues to thrive today This reference is designed to accommodate the critical and bibliographical needs of a broad spectrum of users from scholars seeking critical assistance to general readers wanting an introduction to the Gothic its abundant criticism and the present state of Gothic Studies The volume includes alphabetically arranged entries on more than 50 Gothic writers from Horace Walpole to Stephen King Entries for Russian Japanese French and German writers give an international scope to the book while the focus on English and American literature shows the dynamic nature of Gothicism today Each of the entries is devoted to a particular author or group of authors whose works exhibit Gothic elements beginning with a primary bibliography of works by the writer including modern editions This section is followed by a critical essay which examines the author's use of Gothic themes the author's place in the Gothic tradition and the critical reception of the author's works The entries close with selected annotated bibliographies of scholarly studies The volume concludes with a timeline and a bibliography of the most important broad scholarly works on the Gothic

Breaking the Sequence Ellen G. Friedman, Miriam Fuchs, 2014-07-14 These nineteen essays introduce the rich and until now largely unexplored tradition of women's experimental fiction in the twentieth century The writers discussed here range from Gertrude Stein to Christine Brooke Rose and include among others Virginia Woolf Jean Rhys Jane Bowles Marguerite Young Eva Figs Joyce Carol Oates and Marguerite Duras Friedman and Fuchs demonstrate the breadth of their research first in their introduction to the volume in which they outline the history of the reception of women's experimental fiction and analyze and categorize the work not only of the writers to whom essays are devoted but of a number of others too and second in an extensive and wonderfully useful bibliography Emma Kafalenos The International Fiction Review After an introduction that is practically itself a monograph eighteen essayists too many of them distinguished to allow an equitable sampling take up three generations of post modernists American Literature The editors see this volume as part of the continuing feminist project of the recovery and foregrounding of women writers Friedman and Fuchs's substantive introduction excellently synthesizes the issues presented in the rest of the volume Patrick D Murphy Studies in the Humanities Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and

hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
