Production Diary Des Lyver, 2013-01-25 Video production requires a high degree of organization to be a success Good organization will require a proper diary to be kept of your production It is the understanding of the paperwork and its organization that will make your production either a success or a failure Explained in accessible terms and assuming little prior knowledge of the subject this book will help you to plan successful procedures for all stages of a video production produce paperwork logically to get professional results understand the basic principles of setting up and running your own business avoid common and costly pitfalls If you are a student who wishes to learn about all aspects of planning and documenting a video production from conceptualization right through to final screening this book is for you It is particularly

suitable for the City and Guilds Media Techniques Certificate Television and Video Production Competences This book complements the other three titles in the series which allow you to understand the overall process of video production and then look in more detail at sound and lighting **Music/Video** Gina Arnold, Daniel Cookney, Kirsty Fairclough, Michael Goddard, 2017-08-30 This book is a lively comprehensive and timely reader on the music video capitalising on cross disciplinary research expertise which represents a substantial academic engagement with the music video a mediated form and practice that still remains relatively under explored in a 21st century context The music video has remained suspended between two distinct poles On the one hand the music video as the visual sheen of late capitalism at the intersection of celebrity studies and postmodernism On the other hand the music video as art looking to a prehistory of avant garde film making while perpetually pushing forward the digital frontier with a taste for anarchy controversy and the integration of special effects into a form designed to be disseminated across digital platforms In this way the music video virally re engenders debates about high art and low culture This collection presents a comprehensive account of the music video from a contemporary 21st century perspective This entails revisiting key moments in the canonical history of the music video exploring its articulations of sexuality and gender examining its functioning as a form of artistic expression between music film and video art and following the music video s dissemination into the digital domain considering how digital media and social media have come to re invent the forms and functions of the music video well beyond the limits of music television
