Seeing Things Differently Janet Kuypers, 2005 *Citizenship, Education and Violence* Waghid Yusef, 2013-12-30 The focus of this book is to offer a humane response to dealing with violence An interpretive analysis is presented in order to think differently about violence in schools and about how a citizenship education of becoming can deal with the unpredictable consequences of violence in its own potentiality It seems to the authors that given the confident onslaught of violence there is nothing left to do but to offer insight into the nature of violence itself and by so doing to search for unexplored ways of humane response and being The authors are not pretending to hold a magic wand that will sanctify schools into the safe zones that they ought to be and as which they should serve in any society This would be both presumptuous and misleading What one is looking and hoping for however is a renewed engagement a slight tilting of the perspective so that something other than how we have always responded to violence perhaps will emerge The authors are confident that such a deconstructive approach to violence in schools through the lens of a reconsidered view of citizenship education can assist them and others to wrestle with its potential for destruction that can be changed into options for co belonging of a non violent if not peaceful kind

The American Indian Mind in a Linear World Donald L. Fixico, 2024-09-27 Now in its second edition *The American Indian Mind in a Linear World* examines the persistence of Native peoples in retaining their own worldviews from the pre Columbian era into the twenty first century The book explores the ways in which Indian people who are close to their cultural traditions think in a circular fashion understand by relying on visual analysis and make decisions from an Indigenous logic Yet Comanches have a different reality from Mohawks Apache ethos is not like that of the Lakotas and Indian men and women see things differently How and why is the Native mind different from the western world Why have white teachers and

missionaries tried to change the minds of Native students The Indian perspective is not wrong it is simply different and inclusive another way of looking at the world and universe This edition updates the discussion with a new chapter on contemporary American Indian intellectualism and further analysis of the preservation of Indigenous traditional knowledge Approachable and engaging this volume is a key resource for students and scholars of Native American and Indigenous studies and Indigenous history

on the meaning of faithjustice starting with the biblical grounding It then traverses the full breadth of historical developments in the Catholic Christian community for more than 200 years and elucidates the meaning of faithjustice in our contemporary context Underlining all this is the author s conviction that only people who are living out faithjustice commitments can promote the truth about the necessity of solidarity and counter the pernicious mistrust that creates division in society This updated edition includes new materials on creation and the jubilee tradition and on the parables of Jesus the writings of Popes Benedict XVI and Francis and other social teaching documents from the past twenty years and updated economic racial and social data and analysis in light of the justice tradition
