Modern China** Qiang Fang,Xiaobing Li,2018-12-20 Corruption and Anti Corruption in Modern China collects essays from the

perspective through a cooperative interdisciplinary research effort among Chinese American scholars interested in the
subject Their scholarship makes a significant contribution through multi faceted components from different fields such as
history economics political science criminal justice and popular culture The authors introduce and explore the theory and
practice of policy patterns political systems and social institutions by identifying key issues in Chinese government and
society contained within the larger framework of the international sphere This book describes a historical transition when the
Chinese Communist Party CCP maintained its forceful control of cities while the middle class reluctantly sacrificed its rights
in exchange for retaining their economic benefits To survive market economy the party leadership became more flexible and
was able to adapt to economic and social change The CCP governments in our research responded to the rising demands and
expectations of the society They were willing and able to cope with the middle class by making a few compromises and
following certain legal procedures in exchange for continuing political support These practical comprises characterized a
new political culture in PRC history since 1949 The book voices the complaints and resentments in the cities and interprets
government policies and legal practices It emphasizes the consequence for governance human rights and commercial rule of
law all of which threatens the legitimacy of the CCP It also suggests an important evolution of the CCP The reform movement
since the 1980s has not yet contributed significantly to the country s democratic transformation or to its social stability The
leaders in the 1990s focused on liberal economic reform while discouraging and even stifling political reform As a result
economic interest groups successfully established an alliance with CCP officials to control economic policy making and to
share political governance In the 2010s Chinese leaders have paid special attention to political scandals corruption and
