out of sight of the ground knowing that the price of a small mistake can be a plunge to one's death Preston's account of this amazing world by turns terrifying moving and fascinating is an adventure story told in novelistic detail by a master of nonfiction narrative The author shares his protagonist's passion for tall trees and he mastered the techniques of tall tree climbing to tell the story in *The Wild Trees* the story of the fate of the world's most splendid forests and of the imperiled biosphere itself
