The (G)od Theory Sasha Ravae,2022-08-19 Since birth we have been conditioned to believe that money will make us happy an attractive and successful partner will make us happy a high IQ will make us happy a big house will make us happy a thriving career will make us happy a perfect life will make us happy but this is all a lie Whenever we pursue happiness we are immediately losing touch with the fact that happiness is already here right now in this very moment without us having to do anything or question anything happiness just is With The God Theory there is no script to stick to the only requirement is that you let your light shine through that you be a true manifestation of the Divine s love and not Ego The process of discovering your Inner God is all about turning your power inward instead of outward no longer giving your power away to anything or anyone and acknowledging that the Creator put you here for a very specific reason this takes patience

practice and dedication But once achieved everything in life becomes easier because we re now in flow It s all about swimming downstream
