[The Promise and Peril of Things](#) Wai-yee Li, 2022-05-17. Winner 2023 Choice Outstanding Academic Title. Our relationship with things abounds with paradoxes. People assign value to objects in ways that are often deeply personal or idiosyncratic, yet at the same time rooted in specific cultural and historical contexts. How do things become meaningful? How do our connections with the world of things define us? In Ming and Qing China, inquiry into things and their contradictions flourished, and its depth and complexity belie the notion that material culture simply reflects status, anxiety, or class conflict. Wai-yee Li traces notions of the pleasures and dangers of things in the literature and thought of late imperial China. She explores how aesthetic claims and political power intersect, probes the objective and subjective dimensions of value, and questions what determines authenticity and aesthetic appeal. Li considers core oppositions: people and things, elegance and vulgarity, real and fake, lost and found, to tease out the ambiguities of material culture. With examples spanning the late sixteenth to the mid-eighteenth centuries, she shows how relations with things can both encode and resist social change, political crisis, and personal loss. *The Promise and Peril of*
