Looking West:

Looking West Loleen Berdahl, Roger Gibbins, 2014-02-24 Although a history of protest politics has done so much to define western Canada and to place it outside the Canadian mainstream the aspirations and frustrations that animated western discontent over the years have been replaced by a new reality the West is in and many of the levers of national economic and political power rest in western Canadian hands The protest tradition has yielded a dynamic region that leads rather than reacts to national economic social and political change The westward shift of the Canadian economy and demography is likely to be an enduring structural change that reflects and is reinforced by the transformation of the continental and global economies At the same time western Canada faces major challenges including finding a place for a sustainable resource economy in a rapidly changing global environment establishing a full and modern partnership with Aboriginal peoples and creating urban environments that will attract and retain human capital None of these challenges are unique to the West but they all play out with great force and great immediacy in western Canada **Looking West** John D. Dorst, 1999 In *Looking West* John D. Dorst examines a largely neglected pattern of seeing that stands in contrast to the universally familiar iconography **Looking West?** Hilary Pilkington, 2002 Russian youth culture has been a subject of great interest to researchers since 1991 but most studies to date have failed to consider the global context *Looking West* engages theories of cultural globalization to chart how post Soviet Russia's opening up to the West has been reflected in the cultural practices of its young people Visitors to Russia's cities often interpret the presence of designer clothes shops Internet cafés and a vibrant club scene as evidence of the Westernization of Russian youth As *Looking West* shows however the younger generation has adopted a pick and mix strategy with regard to Western cultural commodities that reflects a receptiveness to the global alongside a precious guarding of the local The authors show us how young people perceive Russia to be positioned in current global flows of cultural exchange what their sense of Russia's place in the new global order is and how they manage to live with the West on a daily basis *Looking West* represents an important landmark in Russian Western collaborative research Hilary Pilkington and Elena Omelchenko have been at the heart of an eight year collaboration between the University of Birmingham U K and Uliyanovsk State University Russia This book was written by Pilkington and Omelchenko with the team of researchers on the project Moya Flynn Uliana Bliudina and Elena Starkova **Always** **Looking West** Duane Kent Clatworthy, 2013 Young Ken is on a journey out west he wants to find a ranch to call his home With the help of many people including a young red headed girl who captures his heart Ken grows into a man and learns home is created by family **Gematon: Living and Dying in a Kushite Town on the Nile, Volume I** Derek A. Looking West? Can Erimtan, 2008-03-30 The Tulip Age a concept that described the beginning of the Ottoman Empire's westward inclination in the eighteenth century was an idea proposed by Ottoman historian Ahmed Refik in 1912 In the first reassessment of the origins of this concept Can Erimtan argues the Tulip Age was an important template for various political and ideological concerns of early twentieth century Turkish governments The concept is most reflective of the 1930s Republican leadership's attempt to disengage Turkey's population from its Islamic culture and past stressing the virtues of progress modernity and secularism It was only the death of Atatürk in 1938 that precipitated a hesitant revival of Islam in Turkey's public life and a state sponsored re invigoration of research into Turkey's Ottoman past In this exciting reassessment Erimtan shows us that the trope of the Tulip Age corresponds more to Turkish society's desire to re orientate itself to the Occident throughout the twentieth century rather than to early eighteenth century Ottoman realities
