Creative Representations of Place Alison Barnes, 2018-07-11 Cultural geography and the

social sciences have seen a rise in the use of creative methods with which to understand and represent everyday life and place Conversely many artists are producing work that centres on ideas of place and space and utilising empirical research methods that have a resonance with geographers This book contributes to the body of literature emerging from such creative approaches to place Drawing together theory and practice from cultural geography anthropology and graphic design this book proposes an interdisciplinary geo graphic process for interrogating and re presenting everyday life and place A diverse set of research projects highlights participatory and autoethnographic approaches to the research The sites of the projects are varied encompassing the commercial space of grocery shops caf s and restaurants the private domestic space of the home and a Scottish World Heritage site The theoretical context of each project highlights the transferability of the geo graphic process with place being variously framed within discussions of food multi culturalism and belonging home collecting and meaningful possessions and materiality memory and affect Themes in the book will appeal to researchers working in the creative methods field This book will also be essential supplementary reading for postgraduate students studying Cultural Geography Experimental Geographies Visual Anthropology Art and Design

The Typographic Medium Kate Brideau, 2021-10-19 An innovative examination of typography as a medium of communication rather than part of print or digital media Typography is everywhere and yet widely unnoticed When we read type we fail to see type In this book Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself able to transcend the life and death of particular technologies Examining the contradiction between typographic form often overlooked and function often overpowering Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium After considering what constitutes typographic form Brideau turns to typographic function and how it relates to form Examining typography s role in both the neurological and psychological aspects of reading she argues that typography s functions exceed reading typographic forms communicate but that communication is not limited to the content they carry To understand to what extent the design and operations of the typographic medium affect the way we perceive information Brideau warns we must understand the medium s own operational logic embodied in the full diversity of typographic forms Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work including phenomenological ideas about comprehension German media archaeology and the media and communication theories of Vil m Flusser and others Hand drawn illustrations of typographic forms accompany the text

Art of Illusion Dan Karlholm, 2006 To survey art history as a whole was a pressing task for a generation of German scholars around the mid nineteenth century Their projections of a historicist chain of artworks ranged from textual narratives without illustrations to separate picture compendia as well as images of a more allegorical kind Other means with which to picture art history as

part of a virtually all encompassing cultural history were the museums of art erected in Germany at the time in Berlin and Munich especially This book deals with practices of representing art history in various media This includes post Hegelian texts and engravings of art history from the 1840s onwards by Franz Kugler Julius Schnorr and others In addition works of art of the late twentieth century by Andy Warhol Anselm Kiefer and others provide opportunities to speculate on the after effects and discursive traces of the old regime Extending the concept of historiography to include not just textual or institutional endeavours but a host of different images as well from reproductive prints to pop paintings and visual archives of the digital era this study is intended to contribute in new ways to a critical historiography of the field of art history and visual culture today
