

Stop looking for angels, and start looking for angles. There are options. Settle in for the long haul and then try each and every possibility, and you'll get there. When people ask where we are, what we're doing, how that "situation" is coming along, the answer should be clear: We're working on it. We're getting closer. When setbacks come, we respond by working twice as hard.

Source s ChallengeGoing Beyond Spirituality is not about the life I have had My past is my past it does not define who I am Instead my past defines the people who have been in my life and the influences they have had on me There is nothing wrong with this Actually I thank them for being there for me Who I am personality wise is a consequence of my pasta conditioning one might say As an individual my challenge as an adult has been to un condition myselfto find what I am made of to be a consequence of myself and to be at peace with this Yes others have had worse lives than me but are they and if you have picked up this book are you willing to move past your past and be un conditioned To move past the pain and hurt the agony of being eaten away by the emotions brought about by family and life history To face the new challenge of finding the real self To let go of who you think you are and to find who you truly are Source s ChallengeGoing Beyond Spirituality is meant to be used as a guide to question what one thinks how one acts why something happened when it will change and where one is going The first step is to realise that everyone may not see from the same perspective but no one is not alone in endeavours of searching for the Truth And that Truth is who you really are
