Looking For Happiness:

Knowing Other Minds Anita Avramides, Matthew Parrott, 2019-09-05 We all take it for granted that we are typically in a position to know about the thoughts and feelings of other people But we might naturally wonder how we acquire this kind of knowledge Knowing Other Minds brings together ten original chapters written by internationally renowned researchers on questions that arise from our everyday social interaction with others Can we have direct perceptual knowledge of another person's thoughts How do we acquire general conceptions of mental states What lessons can be drawn from experimental work in developmental psychology Are there fundamental differences between the ways in which we acquire knowledge of our own minds and the ways in which we acquire knowledge of someone else's mind What sort of cognitive processing underlies our everyday social understanding How should we best think of the relationship between our complex social life and moral value The chapters in this volume convey a variety of different perspectives and make a number of novel contributions to the existing literature on these questions thereby opening up new avenues of inquiry Furthermore they illustrate how questions in philosophy and questions from empirical cognitive science overlap and mutually inform one another

Looking for Happiness in All the Wrong Places Holly Heald,2021-01-26

From the moment we are born we step onto a conveyer belt which propels us through life Taking us from early childhood to young adulthood our experiences families friends and the education system teach us about the World and eventually in adulthood we join the race to succeed at life The problem is that many of the ideas that are sold to us on the journey are built on concepts such as economic growth that many of us don't really understand Consequently many of us have bought into ideas of the World and what it means to be successful and happy with little understanding of what it means and how it affects our lives the lives of the people around us and our environment Looking for Happiness in All the Wrong Places considers the question of happiness in the context of a World obsessed with economic growth and money and how we may find true meaning and success in our lives that doesn't cost the World
