white working class throughout the world is directly traceable to American slavery on which modern commerce and industry was founded Du Bois argues Moreover the resulting color caste was adopted forwarded and approved by white labor and resulted in the subordination of colored labor throughout the world As a result the majority of the world s laborers became part of a system of industry that destroyed democracy and led to World War I and the Great Depression This book tells that story Neighborhood Context and the Development of African American Children Maria Loreto Martinez,2016-12-05 The evidence of worsening life conditions concentration of poverty and high degree of African American segregation in urban areas has led to a growing interest in how neighborhood contexts effect child development and parenting behavior This study attempts to understand development in context by focusing on the role of neighborhood influences early in child development and to shed light on the pathways by which family and community resources influence development **White**
