CEOs and CFOs in collusion with those who have regulatory oversight of their industries use to defraud companies for their personal gain Recounting the investigations he conducted as Director of Litigation for the Federal Home Loan Bank Board Black fully reveals how Charles Keating and hundreds of other S L owners took advantage of a weak regulatory environment to perpetrate accounting fraud on a massive scale In the new afterword he also authoritatively links the S L crash to the business failures of 2008 and beyond showing how CEOs then and now are using the same tactics to defeat regulatory restraints and commit the same types of destructive fraud Black uses the latest advances in criminology and economics to develop a theory of why control fraud looting a company for personal profit tends to occur in waves that make financial markets deeply inefficient He also explains how to prevent such waves Throughout the book Black drives home the larger point that control fraud is a major ongoing threat in business that requires active independent regulators to contain it His book is a wake up call for everyone who believes that market forces alone will keep companies and their owners honest Bill Black has detailed an alarming story about financial and political corruption Paul Volcker Persons interested in the economics of fraud the S L debacle the problems of financial regulation and microeconomics more broadly will find this book to be very important Journal of Economic Issues The Mystery Fancier (Vol. 2 No. 1) January 1978 Guy M.
