existence working as a design engineer with PA Consulting Group's Cambridge Technology Centre One of my earliest assignments involved the development of a piece of labo tory automation equipment for a major European pharmaceutical manufacturer Two things stick in my mind from those early days first that the equipment was always to be ready for delivery in three weeks and second that being able to write well structured Pascal was not sufficient to deliver reliable software performance Delivery was ultimately six months late the project ran some sixty percent over budget and I gained my first promotion to Senior Engineer At the time it puzzled me that I had been unable to predict the John Clarkson real effort required to complete the automation project I had Reader in Engineering Design genuinely believed that the project would be finished in three Director Cambridge Engineering weeks It was some years later that I discovered Kenneth Cooper s Design Centre papers describing the Rework Cycle and realised that I had been the victim of undiscovered rework I quickly learned that project plans were not just inaccurate as most project managers would attest but often grossly misleading bearing little resemblance to actual development practice The Marketing Gurus Chris Murray, Soundview Executive Book Summaries Eds., 2006-07-20 Indispensable summaries of the best marketing books of our time Since 1978 Soundview Executive Book Summaries has offered its subscribers condensed versions of the best business books published each year Focused insightful and practical Soundview's summaries have been acclaimed as the definitive selection service for the sophisticated business book reader Now Soundview is bringing together summaries of seventeen essential marketing classics in a single volume that include one all new previously unpublished summary Here is just about everything you ever wanted to know about marketing The Marketing Gurus distills thousands of pages of powerful insights into less than three hundred making it an ideal resource for busy professionals and students Who are the gurus They include Guy Kawasaki on How to Drive Your Competition Crazy Geoffrey Moore on marketing high technology in Crossing the Chasm Jack Trout on how companies can help their products stand above the crowd in Differentiate or Die Regis McKenna on the changing role of the customer in the classic Relationship Marketing Philip Kotler on the concept of Lateral Marketing which helps companies avoid the trap of market fragmentation Seth Godin on how to create a Purple Cow that will take off through word of mouth Lisa Johnson and Andrea Learned on marketing to women in Don t Think Pink The collective wisdom contained in The Marketing Guru can help any marketer on his or her journey to becoming a marketing guru www summary com Web Design and Marketing Solutions for Business Websites Kevin Potts, 2007-11-25 The best business websites serve their readers with strong content well architected design and a focus on usability readability and accessibility This book covers the fundamental aspects of building a website that works for the company not against it It covers the essentials of strong copywriting and then dedicates several chapters to designing user centric About Products and Services and Support sections Your visitors come to your site because they are interested in your business and are therefore potential customers This book covers taking advantage of that traffic by expanding the company s story through a corporate blog and using testimonials
