Race-ing Representation Kostas Myrsiades, Linda S. Myrsiades, 1998. This collection takes on the problem of representing race in the context of a master language and culture. These essays discuss this problem in terms of the ongoing struggle to redefine the self as speaker that is to re-construe our understanding of history, sexuality, and speech itself in a continuing battle for self-definition. As a totality, these essays explode the notion of race as a natural boundary between groups and pose a variety of possible constructions that force us to accept race not as a category but as a practice. Kostas and Linda Myrsiades have brought together scholars whose varied essays explore the issues of voice, history, and sexuality in such diverse venues as detective fiction, the Clarence Thomas hearings, the witches of Salem, the Harlem Renaissance, and the work of Toni Morrison, demonstrating that resistance to race-ing is both meaningfully engaged as a cultural possibility and rewritten as a linguistic practice.

Discounting Life Jothie Rajah, 2022-11-03. Extrajudicial, extraterritorial killings of War on Terror adversaries by the US state have become the new normal. Alongside targeted individuals, unnamed and uncaptured others are maimed and killed. Despite the absence of law's conventional sites, processes, and actors, the US state celebrates these killings as the realization of justice. Meanwhile, images, narrative, and affect do the work of law, authorizing and legitimizing the discounting of some lives so that others implicitly American nationals may live. How then, as we live through this unending globalized war, are we to make sense of law in relation to the valuing of life? Adopting an interdisciplinary approach to law to excavate the workings of necropolitical law and interrogating the US state's justifications for the project of counterterrorism, this book's temporal arc, the long War on Terror, illuminates the profound continuities and many guises for racialized imperial violence informing the contemporary discounting of life.

The Temple in Text and Tradition R. Timothy McLay, 2015-02-26. The creation of many of these writings coincided with the growth of the Jewish community beyond the borders of Israel; therefore, among those for whom the Temple played a diminishing role. The transition period from Temple to texts was accompanied by conflicting interpretations about the role of the Temple as well as diverse theological understandings about God and the Jewish people. Drawing on the expertise of leading specialists in Second Temple Judaism,

Temple Texts and Traditions explores the rich traditions of the Jewish people as they were expressed and interpreted in their writings in that period which included writings that later became recognized as Scriptures
