reexamination Alina Szapocznikow Sculpture Undone 1955 1972 offers a comprehensive overview of this important artist's work at a moment when international interest is blossoming. Spanning one of the most rich and complex periods of the 20th century, Szapocznikow's oeuvre responds to many of the ideological and artistic developments of her time through artwork that is at once fragmented and transformative, sensual and reflective, playfully realized and politically charged. Featuring over 100 works including sculpture, drawings, and photography, the exhibition draws on loans from private and public collections including major institutions in Poland. It is accompanied by a major publication co-published by The Museum of Modern Art and Mercatorfonds that reflects new scholarship on Szapocznikow, contextualizing this little-known artist's work for a wider audience.
