## Love Canal Science Politics And People:

*Love Canal* Adeline Levine, 1982      Love Canal Richard S. Newman, 2016-04-12 In the summer of 1978 residents of Love Canal a suburban development in Niagara Falls NY began protesting against the leaking toxic waste dump in their midst a sixteen acre site containing 100 000 barrels of chemical waste that anchored their neighborhood Initially seeking evacuation area activists soon found that they were engaged in a far larger battle over the meaning of America s industrial past and its environmental future The Love Canal protest movement inaugurated the era of grassroots environmentalism spawning new anti toxics laws and new models of ecological protest Historian Richard S Newman examines the Love Canal crisis through the area s broader landscape detailing the way this ever contentious region has been used altered and understood from the colonial era to the present day Newman journeys into colonial land use battles between Native Americans and European settlers 19th century utopian city planning the rise of the American chemical industry in the 20th century the transformation of environmental activism in the 1970s and the memory of environmental disasters in our own time In an era of hydrofracking and renewed concern about nuclear waste disposal Love Canal remains relevant It is only by starting at the very beginning of the site s environmental history that we can understand the road to a hazardous waste crisis in the 1970s and to the global environmental justice movement it sparked      Love Canal Revisited : Race, Class, and Gender in Environmental Activism Elizabeth D. Blum, 2008 Historical snapshots of the Love Canal area Gender at Love Canal Race at Love Canal Class at Love Canal Historical implications of gender race and class at Love Canal      *Histories of the Dustheap* Stephanie Foote, Elizabeth Mazzolini, 2012 An examination of how garbage reveals the relationships between the global and the local the economic and the ecological and the historical and the contemporary Garbage considered both materially and culturally elicits mixed responses Our responsibility toward the objects we love and then discard is entangled with our responsibility toward the systems that make those objects *Histories of the Dustheap* uses garbage waste and refuse to investigate the relationships between various systems the local and the global the economic and the ecological the historical and the contemporary and shows how this most democratic reality produces identities social relations and policies The contributors first consider garbage in subjective terms examining toxic autobiography by residents of Love Canal the intersection of public health and women s rights and enviroblogging They explore the importance of place with studies of post Katrina soil contamination in New Orleans e waste disposal in Bloomington Indiana and garbage on Mount Everest And finally they look at cultural contradictions as objects hover between waste and desirability examining Milwaukee s efforts to sell its sludge as fertilizer the plastics industry s attempt to wrap plastic bottles and bags in the mantle of freedom of choice and the idea of obsolescence in the animated film *The Brave Little Toaster* *Histories of the Dustheap* offers a range of perspectives on a variety of incarnations of garbage inviting the reader to consider garbage in a way that goes beyond the common buy green discourse that empowers individuals while limiting environmental activism to consumerist practices

**Citizen Democracy** Stephen E. Frantzich, 2008-08-15 Through a series of carefully chosen vignettes Stephen E Frantzich portrays citizens from every walk of life rich and poor old and young black and white male and female left and right famous and obscure engaged in extraordinary civic activity Their causes run the gamut from civil rights to flag burning from the Internet to the environment but their common cause is the fact that they creatively entered the arena of national public policy making and made a difference

**The Social and Cultural Construction of Risk** B.B. Johnson, V.T. Covello, 2012-12-06 The Social and Cultural Construction of Risk Issues Methods and Case Studies Vincent T Covello and Branden B Johnson Risks to health safety and the environment abound in the world and people cope as best they can But before action can be taken to control reduce or eliminate these risks decisions must be made about which risks are important and which risks can safely be ignored The challenge for decision makers is that consensus on these matters is often lacking Risks believed by some individuals and groups to be tolerable or accept able such as the risks of nuclear power or industrial pollutants are intolerable and unacceptable to others This book addresses this issue by exploring how particular technological risks come to be selected for societal attention and action Each section of the volume examines from a different perspective how individuals groups communities and societies decide what is risky how risky it is and what should be done The writing of this book was inspired by another book Risk and Culture An Essay on the Selection of Technological and Environmental Dangers Published in 1982 and written by two distinguished scholars Mary Douglas a British social anthropologist and Aaron Wildavsky an American political scientist the book received wide critical attention and offered several provocative ideas on the nature of risk selection perception and acceptance

**Crazy for Democracy** Temma Kaplan, 2016-01-08 Crazy for Democracy vividly shows through the lives of six women in the United States and South Africa just what can be and is being accomplished to change our lives At a time when we re depressed about democracy pessimistic about race relations and anxious about feminism Crazy for Democracy vividly shows through the lives of six women in the United States and South Africa just what can be and is being accomplished to change our lives In building real social movements to achieve a safe environment win human rights and safeguard their homes these grassroots feminist leaders have been creating democratic institutions to achieve social justice for us all

**Conservation and Environmentalism** Robert C. Paehlke, 2013-04-03 Focusing on both problems and solutions this authoritative reference work maintains a healthy balance between science and the social sciences in its coverage of all aspects of the environment The book is arranged alphabetically and is divided into three major

sections Ecology Pollution and Sustainability The list of 240 contributors reads like a who's who of the world's leading conservation and environmental professionals Best Reference Source Outstanding Reference Source Volatile Places Valerie Gunter, Steve Kroll-Smith, 2006-11-22 Volatile Places A Sociology of Communities and Environmental Controversies is a thoughtful guide to the spirited public controversies that inevitably occur when environments and human communities collide The movie An Inconvenient Truth based on the environmental activism of Al Gore and the devastation of Hurricane Katrina are specifically highlighted Authors Valerie Gunter and Steve Kroll Smith begin with a simple observation and offer a provocative case study approach to the investigation of community and environmental controversies Key Features Compels students with personal narrative Co author Valerie Gunter who was teaching at the University of New Orleans when Hurricane Katrina struck gives her personal standpoint of this tragedy Creates a dramatic story around the controversy Each case study illustrates a local environmental conflict and is written to capture students attention Provides a unique way to view environmental conflicts The book illustrates the importance of each perspective and local knowledge when making decisions about the environment Makes connections with previous chapters The chapters are integrated to create a strong sense for the multifaceted approach to the study of community and environmental controversies Includes portfolios in each chapter as well as concept and theory boxes Students are inspired to engage in spirited thinking original research and action Intended Audience This text is designed for advanced undergraduate and graduate courses in Environmental Sociology It is also an ideal text for Social Problems courses focusing on environmental issues **Uncertain Hazards** Sylvia Noble Tesh, 2018-05-31 Ordinary citizens frequently organize around environmental issues on which little scientific evidence exists to back activists claims Should we then dismiss such claims as spurious Or should we side with citizens against the polluters Uncertain Hazards takes neither path In exploring the all too common problem of scientific uncertainty about links between pollution and public health Sylvia Noble Tesh shows that much of the problem can be traced to the newness of the environmental movement The inability of scientists to find data corroborating citizens claims stems partly from the pre environmentalist assumptions still influencing the environmental health sciences Tesh says On the other hand the conviction of activists that industrial pollutants threaten their health results from the environmental movement's success in promoting new ideas about nature Tesh points to ways that environmentalist ideas have begun to affect science thus making more likely the discovery of links between exposure to industrial pollutants and a community's health problems Those ways include the expansion of diseases construed as environmental in cause the study of society's most vulnerable citizens in determining safe levels of pollution and a new focus on the effects of exposure to chemical mixtures Using community activists own words and experiences Tesh argues against the familiar charge that activists are naive about science It is inaccurate she says to characterize debates over the hazardous nature of pollution as debates between laypeople and experts Instead they are debates between two groups of experts It is also inaccurate however to see the conflict over environmental pollution only in

scientific terms The conflict has culturally important moral dimensions and community activists draw heavily although often unconsciously on the lessons taught by environmentalism      **The Trouble with Government** Derek Curtis Bok,2001 The author of State of the Nation seeks to determine the main reasons for the failings and frustrations associated with government and offers concrete steps that Americans can take to become politically engaged and to help the United States to improve its performance 3 tables      **Injuries and Damages from Hazardous Wastes** ,1982      Injuries and Damages from Hazardous Wastes: The report and comments ,1982      **Environmental Health** Natalie Sampson,Lindsay Tallon,Natasha DeJarnett,2024-08-29 Environmental Health Foundations for Public Health brings together diverse voices and perspectives to examine our most pressing public health issues today This foundational textbook introduces readers to a wide range of the knowledge skills data and resources needed to ensure environmental health at local and global levels Whether students are heading into careers in governmental public health research advocacy or other sectors this textbook covers topics that relate to us all climate change energy air water food waste and much more Designed for graduates and advanced undergraduates this textbook presents the field s basic concepts related policies and scientific tools in an accessible way Readers learn about regulatory science how environmental health science informs environmental protections and where gaps remain particularly in promoting environmental justice Each chapter examines ways that structural racism and discrimination have shaped environmental health inequities that persist today Readers can dig deeper to examine how environmental health and justice can be achieved in our communities workplaces households and other built and social environments as well as our healthcare systems Drawing on countless historic and contemporary case studies Environmental Health Foundations for Public Health facilitates a learning experience that inspires students to reimagine the foundations of environmental health for all Key Features Provides a variety of learning tools including discussion questions and learning activities related to engagement advocacy and the exploration of environmental health in our daily lives Presents In Other Words boxes to reframe key or complex concepts and promote accessibility Humanizes the realities of pressing environmental health and justice concerns Includes access to a five episode companion podcast series The PFAS Chronicles on the challenges and solutions of preventing and combating per and polyfluoroalkyl substances PFAS or forever chemicals Qualified instructors have access to expanded Instructor Resources featuring chapter PowerPoint slides a Test Bank a Sample Syllabus and an Instructor Manual to supplement students dynamic learning and interaction with the text

Acceptable Risk? Lee Clarke,1989 Organizations and modern technology give us much of what we value but they have also given us Chernobyl Three Mile Island and Bhopal The question at the heart of this paradox is What is acceptable risk Based on his examination of the 1981 contamination of an office building in Binghamton New York Lee Clarke s compelling study argues that organizational processes are the key to understanding how some risks rather than others are defined as acceptable He finds a pattern of decision making based on relationships among organizations rather than the authority of

individuals or single agencies      The Science of Public Policy Tadao Miyakawa,1999      *The Environment Since 1945* Marcos Luna,2012 Examines numerous controversies in environmental politics and policy since 1945 including the Donora smog event of 1948 building dams in national parks the passage of the National Environmental Protection Act the banning of DDT the Love Canal crisis the Exxon Valdez oil spill the Makah whale hunt and environmental racism      **Lobbying for Social Change** Willard C.
