Divination is the fusion of three ancient divination systems Tarot Astrology and the I Ching or TAI These 3 systems have come together in one reading probably for the first time ever in the history of divination You don t have to be psychic to use TAI and TAI is easy to understand for beginners and in depth enough for experts TAI is not intended to compete with or replace existing forms of divination or Holy Scriptures of various religions They all originally come from the Divine that lives within a man to help advise and guide him in his life The author respects all the founders equally as God s messengers This brings to mind of a bowl full of small cards with quotes from the Bible a device which his Salvation Army parents used to ask questions via the ancient art of bibliomancy TAI was accidentally discovered February 11th 1981 and co incidentally published in 2015 the third year of the Aquarian age Pray that the Divine within speaking via TAI advises all equally kindly and wisely For more details you can visit [www.taidivination.com](http://www.taidivination.com) *New Philosophies of Sex and Love* Sarah LaChance Adams, Christopher M. Davidson, Caroline R. Lundquist, 2016-11-30 Our amorous and erotic experiences do not simply bring us pleasure they shape our very identities our ways of relating to ourselves each other and our shared world This volume challenges some of our most prevalent assumptions relating to identity the body monogamy libido sexual identity seduction fidelity orgasm and more In twelve original and philosophically thought provoking essays the authors reflect on the broader meanings of love and sex what their shifting historical meanings entail for us in the present how they are constrained by social conventions the ambiguous juxtaposition of agency and passivity that they reveal how they shape and are formed by political institutions the opportunities they present to resist the confines of gender and sexual orientation how cultural artefacts can become incorporated into the body and how love and sex both form and justify our ethical world views Ideal for students both in philosophy and gender studies this highly readable book takes us to the very heart of two of the most important dimensions of human experience and meaning making to the seductive and alluring confusing and frustrating realms of love and sex
