Gender, Sexuality, and Material Objects in English Renaissance Verse Pamela S. Hammons,2016-12-05 An important contribution to recent critical discussions about gender sexuality and material culture in Renaissance England this study analyzes female and male authored lyrics to illuminate how gender and sexuality inflected sixteenth and seventeenth century poets conceptualization of relations among people and things human and non human subjects and objects Pamela S Hammons examines lyrics from both manuscript and print collections including the verse of authors ranging from Robert Herrick John Donne and Ben Jonson to Margaret Cavendish Lucy Hutchinson and Aemilia Lanyer and situates them in relation to legal theories autobiographies biographies plays and epics Her approach fills a crucial gap in the conversation which has focused upon drama and male authored works by foregrounding the significance of the lyric and women s writing

Hammons exposes the poetic strategies sixteenth and seventeenth century English women used to assert themselves as subjects of property and economic agents in relation to material items ranging from personal property to real estate despite the dominant patriarchal ideology insisting they were ideally temporary passive vehicles for men's wealth. The study details how women imagined their multiple complex interactions with the material world; the author shows that how a woman poet represents herself in relation to material objects is a flexible fiction she can mobilize for diverse purposes. Because this book analyzes men's and women's poems together, it isolates important gendered differences in how the poets envision human subjects, use, control, possession, and ownership of things, and the influences, effects, and power of things over humans. It also adds to the increasing evidence for the pervasiveness of patriarchal anxieties associated with female economic agency in a culture in which women were often treated as objects.

*Hellenistic Influence and Twins in the Gospel of Mark* Jeffrey B. Pettis, 2023-12-06 *Hellenistic Influence and Twins in the Gospel of Mark* Fiery Angels examines Jesus' twin disciples James and John. Jesus gives them the name Boanerges, Sons of Zeus, referring to the Dioscuri, mythological figures known for their saving action in times of human danger and distress. This book addresses various questions prompted by Jesus' naming of James and John: Is the author embracing Hellenistic myth and mythology as part of his story? Does he portray Jesus as one who himself is influenced by Hellenistic culture, and if so, to what extent? To gain insight into these questions, Jeffrey B. Pettis examines various sources: dioscuric figures in Second Maccabees 3; three visitors in Genesis 18-19; traces of dioscurism in the Markan boat stories. Major themes include fire and sacrifice, theophany, personal saviors, and old and new religion. Of particular interest is the extent to which myth and mythology grasp the hearer's attention and occur as something which makes an impression. Does the author of Mark make use of myth for just this reason: to capture attention and to make and awaken his community to a larger world?
