Tiefel, 2024-03-11 *Christian Ethics Introduced* asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences

created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice. It seemed that both traditional religion and enlightened reason fell short of what had been hoped. And the cause of failure may not lie in traditional religion or in human irrationality. Rather the problem might lie in human conduct. Specifically it may lie in the human inclination to favor self over others of the me outranking the we. Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct, acknowledge it in regard to oneself, ask for forgiveness and make amends and peace with God and with those wronged. *Tough Questions, Thoughtful Responses - Student's Guide*

Brian Arnold, President of Phoenix Seminary. Thinking with Kierkegaard Arne Grøn, 2022-12-31. Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity. The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy. Contrary to many approaches to Kierkegaard's authorship, Grøn does not read Kierkegaard in opposition to Hegel. The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience. Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship, and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work. In Grøn's reading, Kierkegaard conceives human selfhood not merely as relational but also as a process of becoming the self that one is through the otherness of self-experience that is the body, the world, other people, and God. This book should be of interest to philosophers, theologians, literary studies scholars, and anyone with an interest not only in Kierkegaard but also in human identity.

**Homosexuality: How Should Christians Respond?** Richard F. Lovelace, 2002-04-30. In recent times, the question of homosexual rights has burst upon the scene, becoming a burning emotional controversy. Many church leaders have become embroiled in debate, and entire denominations are sharply divided over this issue. Though the church has traditionally served as a moralistic commentator on the sidelines, it now finds itself in the middle of this controversy. Should self-affirmed sexually active homosexuals be ordained as ministers? Should they even be welcomed as fellow believers? How should the Bible be interpreted, and what is its role in ethical guidance of reason, experience, and the Holy Spirit? Should the church tolerate a diversity of convictions and life styles in its sexual ethic? In *Homosexuality: How Should Christians Respond*, Dr. Richard F. Lovelace deals with these questions from an evangelical point of view. He presents the historic church position from Augustine to Theilicke and surveys and analyzes the literature of recent decades which challenges the historic position. Biblical texts that speak specifically on homosexual behavior are studied extensively and brought into sharp focus by corollary Scripture passages. This is an intensely practical book sensitively written to help the church reach out to the needs of homosexuals in constructive and compassionate ways.
