temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution by means of the books in the present series we would like to believe maintain Tynyanov's line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism *The Publishers' Trade List Annual* ,1967 **Defining Literary Criticism** Carol Atherton,2005-09-27 Outlining the controversies that have surrounded the academic discipline of English Literature since its institutionalization in the late nineteenth century this important book draws on a range of archival sources It addresses issues that are central to the identity of academic English how the subject came into existence and what makes it a specialist discipline of knowledge in a manner that illuminates many of the crises that have affected the development of modern English studies Atherton also addresses contemporary arguments about the teaching of literary criticism including an examination of the reforms to A Level literature
