Major Peace Treaties Of Modern History 1648 1979 5 Volume Set:

Israel Yearbook on Human Rights, Volume 16 (1986) Yoram Dinstein, 2020-10-26 **Instruction and Training for**
Enhanced Reference Service: pt. 1, Reference sources for the disciplines, 1998 *State*, 1984 **National Union**
Catalog, 1981, 1982 **Bowker's Law Books and Serials in Print**, 1986 **Treaties and Other International**
Agreements, 1984 *National Union Catalog*, 1981 Includes entries for maps and atlases *The Making of a World Order*
Albert Wu, Stephen W. Sawyer, 2023-09-14 Why does 1919 deserve further study and debate a hundred years later What
lessons for global history may we learn from the world order created at the end of the Great War Drawing insight from the
global turn of the past several decades that has forced us to reconsider the most important world events and processes since
the French Revolution and especially the growing interest in World War I as a global conflict that extended far beyond the
borders of Europe this volume explores the global political ramifications of the treaties prepared at the Paris Peace
Conference in 1919 by focusing on key topics how the Paris Peace Conference re shaped the geo political configurations of
the Middle East the importance of transformations in Asia and particularly China in the immediate postwar period the shifts
in Southeastern Europe new feminist movements in Central Europe and the pre history of neoliberalism Read together the
papers demonstrate how the peace treaties signed in 1919 and 1920 marked a profound transformation on local national
continental and global scales Where to Find What James M. Hillard, 1984 This new update identifies sources to turn to for
quick answers to typical questions that come to the reference desk Copyright Libri GmbH All rights reserved Essays on
the Modern Law of War Leslie C. Green, 2023-12-11 The essays convey collectively a picture of the law of armed conflict that
is multidimensional in scope and insight The second revised and expanded edition is an up to date as well as a classically
authoritative contribution to this immensely important field Christian Social Witness and Teaching: From Biblical times to
the late nineteenth century Rodger Charles, 1998 The two volume authoritative guide to the social teaching of the Catholic
Church This first volume covers the period from Genesis to Centesimus Annus Biblical times to the late nineteenth century
There has been a social teaching in the Judaeo Christian tradition from the beginning and it has continued to develop in the
Christian tradition through the social witness and teaching of the Church through to the present time Here is the Christian
experience from Apostolic times through the witness of the early Church Fathers and then Christendom in the Middle Ages
and the periods of absolutisms imperialisms and revolutions in the early modern and modern world down to the end of the
nineteenth century Rodger Charles S J has been researching lecturing and writing in London Oxford and San Francisco for
over forty years **Woodrow Wilson, the Great War, and the Fourth Estate** James Startt, 2017-06-07 James D Startt
previously explored Woodrow Wilson s relationship with the press during his rise to political prominence Now Startt returns
to continue the story picking up with the outbreak of World War I in 1914 and tracing history through the Senate s ultimate
rejection in 1920 of the Treaty of Versailles and the League of Nations Woodrow Wilson the Great War and the Fourth Estate

delves deeply into the president's evolving relations with the press and its influence on and importance to the events of the time Startt navigates the complicated relationship that existed between one of the country's most controversial leaders and its increasingly ruthless corps of journalists The portrait of Wilson that emerges here is one of complexity a skilled politician whose private nature and notorious grit often tarnished his rapport with the press and an influential leader whose passionate vision just as often inspired journalists to his cause

The Oxford Handbook of the Sources of International Law Jean d'Aspremont, Samantha Besson, Sévrine Knuchel, 2017-10-19 The question of the sources of international law inevitably raises some well known scholarly controversies where do the rules of international law come from And more precisely through which processes are they made how are they ascertained and where does the international legal order begin and end This is the static question of the pedigree of international legal rules and the boundaries of the international legal order Second what are the processes through which these rules are made This is the dynamic question of the making of these rules and of the exercise of public authority in international law The Oxford Handbook of the Sources of International Law is the very first comprehensive work of its kind devoted to the question of the sources of international law It provides an accessible and systematic overview of the key issues and debates around the sources of international law It also offers an authoritative theoretical guide for anyone studying or working within but also outside international law wishing to understand one of its most foundational questions This Handbook features original essays by leading international law scholars and theorists from a range of traditions nationalities and perspectives reflecting the richness and diversity of scholarship in this area

Naval War College Review, 1996 *Turkic Peoples Of The World* Margaret Bainbridge, 2013-10-28 First Published in 1993 From time to time the outbreak of hostilities in some part of the world or other brings to the notice of the Western media peoples of whose very existence they have previously been unaware We may mention two such which have made headlines in 1989 and 1990 the Turks of Bulgaria and the Azerbaijanis of the Soviet Union and Iran Too frequently however in interpreting such events observers tend to attribute the conflict to the one factor which happens to be fashionable at the time currently that factor seems to be religion Too rarely do they observe other differences which may exist between the parties in conflict and which may in the end prove more potent for instance that the factor most likely to set people apart from each other as they go about their daily business may not be religion at all but language As an example of this too few have pointed out that the Azerbaijanis of the Soviet Union differ from the neighbouring Armenians not only in religion but also in language and that this contrasts with the situation over the border where the Azerbaijanis of Iran differ from neighbouring Iranians only in language in speaking Turkic for they share with the majority Persian population their Shi'ite Muslim faith This volume holds a collection of essays on the Turkic people in different countries

The New Cambridge Modern History: Volume 4, The Decline of Spain and the Thirty Years War, 1609-48/49 J. P. Cooper, 1979-12-20 This volume examines the period of history which saw the decline of Spain and the Thirty Years War Particular attention is paid to attitudes towards absolutism

and the development of scientific ideas *Legitimacy in International Society* Ian Clark, 2005-02-24 The word legitimacy is seldom far from the lips of practitioners of international affairs The legitimacy of recent events such as the wars in Kosovo and Iraq the post September 11 war on terror and instances of humanitarian intervention have been endlessly debated by publics around the globe And yet the academic discipline of IR has largely neglected this concept This book encourages us to take legitimacy seriously both as a facet of international behaviour with practical consequences and as a theoretical concept necessary for understanding that behaviour It offers a comprehensive historical and theoretical account of international legitimacy It argues that the development of principles of legitimacy lie at the heart of what is meant by an international society and in so doing fills a notable void in English school accounts of the subject Part I provides a historical survey of the evolution of the practice of legitimacy from the age of discovery at the end of the 15th century It explores how issues of legitimacy were interwoven with the great peace settlements of modern history in 1648 1713 1815 1919 and 1945 It offers a revisionist reading of the significance of Westphalia not as the origin of a modern doctrine of sovereignty but as a seminal stage in the development of an international society based on shared principles of legitimacy All of the historical chapters demonstrate how the twin dimensions of legitimacy principles of rightful membership and of rightful conduct have been thought about and developed in differing contexts Part II then provides a trenchant analysis of legitimacy in contemporary international society Deploying a number of short case studies drawn mainly from the wars against Iraq in 1991 and 2003 and the Kosovo war of 1999 it sets out a theoretical account of the relationship between legitimacy on the one hand and consensus norms and equilibrium on the other This is the most sustained attempt to make sense of legitimacy in an IR context Its conclusion in the end is that legitimacy matters but in a complex way Legitimacy is not to be discovered simply by straightforward application of other norms such as legality and morality Instead legitimacy is an inherently political condition What determines its attainability or not is as much the general political condition of international society at any one moment as the conformity of its specifications to set normative principles *The Puritan Cosmopolis* Nan Goodman, 2018 Prologue The literary cosmopolis and its legal past The law of nations and the sources of the cosmopolis The cosmopolitan covenant The manufactured millennium Evidentiary cosmopolitanism Cosmopolitan communication and the discourse of pietism Epilogue The law of the cosmopolis and its literary past *Human Rights Diplomacy* Rein Mullerson, 2014-04-04 In this insightful analysis of human rights diplomacy Rein Mullerson examines the way foreign policy instruments are used to promote human rights abroad as well as how human rights issues are used for the sake of other foreign policy aims The book explores the relationship between human rights and international stability the role of non governmental organisations the business community and mass media in formulating human rights agendas for governments and inter governmental organisations Also addressed are issues such as the universality of human rights in a multi cultural world and the impact of religious and nationalistic extremism Rein Mullerson concludes by looking at the role of the UN and other international

bodies engaged in the promotion of human rights and how military force can be an option in settling violations The author argues that it tends to be regimes that are hostile to human rights which in turn cause instability in the international community Throughout the work it is demonstrated that a concern for human rights is legitimate because of the impact they have on international relations and because of the common bonds that link all people **Official Records of the ...**
Session of the General Assembly ,1979
