Jackson, Geneviève Belleville, 2025-02-05T00:00:00-05:00 Among the requirements for obtaining a doctoral degree, writing a dissertation is certainly the most difficult and all too often the most painful. This book, written by two professors, offers reflections to help students make progress and addresses the questions surrounding supervision as well as the experience and process of mentoring a dissertation. *How Emotions Are Made in Talk* Jessica S. Robles, Ann Weatherall, 2021-05-12 How Emotions Are Made in Talk brings together an exciting collection of cutting-edge interactional research examining emotions and affectivity as social actions. The international selection of scholars draw on ethnomethodology and conversation analysis applied to a range of settings including sports, workplaces, telephone calls, classrooms, friends, and healthcare. The aim of the book is to provide new insights into how emotions are produced as social actions in relation to, for example, encouragement, responsibility, crying, objects, empathy, joy, surprise, touch, and pain. This volume should be of interest to interactional scholars and researchers interested in social approaches to emotion and addresses a range of scholarship across the disciplines of sociology, communication, psychology, linguistics, and anthropology. **The Paris Sketch Book of Mr. M. **The Japanese Sentence-final Particles in Talk-in-interaction** Hideki Saigo, 2011 The Japanese sentence final particles *ne* *yo* and *yone* have proved notoriously difficult to explain and are especially challenging for second language users This book investigates the role of the particles in talk in interaction with the aim of providing a comprehensive understanding that accounts for their pragmatic properties and sequential functions and that provides a sound basis for second language pedagogy This study starts by setting up an original particle function hypothesis based on the figure ground gestalt and then tests its validity empirically with unmarked marked and native non native talk in interaction data The analysis illustrates not only expectable but also unexpected or strategic use of particles as well as the problems posed for native speakers by non native speakers whose use of particles is idiosyncratic The study demonstrates that the proposed hypothesis is capable of accounting for all the uses of particles in the extensive and varied data set examined This book will be of interest to students and scholars in pragmatics and CA and to teachers of Japanese as a foreign language
