The Transformation of Theology, 1830-1890 Charles D. Cashdollar,2014-07-14 Charles Cashdollar reinterprets nineteenth century British and American Protestant thought by identifying positivism as the central intellectual issue of the era Positivism meant at first the ideas of the French thinker Auguste Comte later in the century the term indicated a more general opposition to supernatural religion Cashdollar shows that contemporary thinkers recognized positivism at each of these stages as the most fundamental of the proliferating challenges to religious belief He further reveals how the encounter with positivism altered Protestant orthodoxy in both subtle and radical ways Positivists denied that humans could know anything other than physical phenomena Declaring many orthodox beliefs archaic they proposed a new ethically based vision of service to humanity After portraying the dissemination of these positions among British and American Protestants the author explains how each of several groups reacted A few theologians rejected positivism outright but many more responded by recasting their own beliefs The implications of this story of change extend to such topics as Darwinism Biblical criticism the rise of the social sciences theological liberalism and the Social Gospel the beginnings of fundamentalism and the twentieth century debate about creationism and science Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Nihilism of Thomas

Bernhard Charles W. Martin,2023-12-18 This study examines the nihilistic basis of Bernhard s writing and traces

developments in the author's nihilistic stance throughout his career. In the first period of his prose fiction (1963-1975) nihilism is reluctantly accepted by Bernhard's fictional characters as a necessary response to a world perceived as meaningless. Various possible sources of transcendence are explored and rejected. The autobiographical texts (1975-1982) then represent a sustained attempt by the author himself to transcend his own essentially nihilistic state. The apparent success of this attempt is quickly revealed to be illusory in the prose fiction of the second period (1978-1986) and it becomes apparent that nihilism is a no less necessary response to Austrian social reality than to the more purely personal problems which first motivated Bernhard's writing.

Neo-Victorian Biographilia and James Miranda Barry Ann Heilmann, 2018-06-27 Senior colonial officer from 1813 to 1859 Inspector General James Barry was a pioneering medical reformer who after his death in 1865 became the object of intense speculation when rumours arose about his sex. This cultural history of Barry's afterlives in Victorian to contemporary neo-Victorian life writing biographilia examines the textual and performative strategies of biography, biofiction and biodrama of the last one and a half centuries. In exploring the varied reconstructions and reimaginings of the historical personality across time, the book illustrates not least with its cover image that the real James Barry does not exist any more than does the faithful biographical, biofictional or biodramatic rendering of a life in a generically stable and discrete form. What Barry represents and how he is represented invariably pinpoints the imaginative, the speculative and the performative reflections and refractions in the looking glass of genre. Just as James Miranda Barry as a subject of cultural inquiry comes into being and remains in view in the act of crossing gender, so neo-Victorian life writing constitutes itself through similar acts of boundary transgression. Transgender thus finds its most typical expression in transgenre.

Managing Our Margins Kimberly A. Reed, 2013-10-31 Many women seek to achieve greater control over their working lives by making a transition to entrepreneurship and as a result must negotiate gender norms and gender-related expectations in both business and personal relationships. Based on interviews with women in the New Jersey suburbs, this book explores the range of uncertainties and practical dilemmas independent businesswomen face today.

The Essential Edmund Leach: Anthropology and society Edmund Ronald Leach, Senior Research Fellow James Laidlaw, 2000-01-01 This volume contains a selection of Edmund Leach's writings on society taken largely though not exclusively from the early part of his career. It includes such essays as *Rethinking Anthropology* and extracts from *Political Systems of Highland Burma*.

Neo-Victorianism Ann Heilmann, Mark Llewellyn, 2010-07-28 This field-defining book offers an interpretation of the recent figurations of neo-Victorianism published over the last ten years. Using a range of critical and cultural viewpoints, it highlights the problematic nature of this new genre and its relationship to re-interpretative critical perspectives on the nineteenth century.

C. R. Mackintosh David Brett, 2004-04-02 Between 1896 and 1906 Charles Rennie Mackintosh 1868 1928 produced a series of buildings and interiors in and around Glasgow of such startling invention that he immediately established himself as one of the truly great figures in early twentieth century architecture and design David Brett argues that Mackintosh's originality was grounded in a highly subjective poetics of workmanship in which the structure features interiors and furnishings of each individual building became subject to a unifying system of forms metaphors and unconscious associations The system Mackintosh evolved allowing for the formulation of an almost infinite series of ensembles After focusing on the various decorative details and interior spaces of Mackintosh's buildings the author reaches to the heart of Mackintosh's poetic system the suffused eroticism of the sleek feminine and intensely private white interiors A notable feature of this persuasive reappraisal of Mackintosh's work is the wealth of photographs by the author showing rarely featured details of buildings interiors and furnishings
