Makers Of Modern History:

Makers of Modern History Sir Edward Cadogan, 1905 *Makers of Modern India* Ramachandra Guha, 2013-10-14

Modern India is the world's largest democracy a sprawling polyglot nation containing one sixth of all humankind The existence of such a complex and distinctive democratic regime qualifies as one of the world's bona fide political miracles Furthermore India's leading political thinkers have often served as its most influential political actors think of Gandhi whose collected works run to more than ninety volumes or Ambedkar or Nehru who recorded their most eloquent theoretical reflections at the same time as they strove to set the delicate machinery of Indian democracy on a coherent and just path Out of the speeches and writings of these thinker activists Ramachandra Guha has built the first major anthology of Indian social and political thought *Makers of Modern India* collects the work of nineteen of India's foremost generators of political sentiment from those whose names command instant global recognition to pioneering subaltern and feminist thinkers whose works have until now remained obscure and inaccessible Ranging across manifold languages and cultures and addressing every crucial theme of modern Indian history race religion language caste gender colonialism nationalism economic development violence and nonviolence *Makers of Modern India* provides an invaluable roadmap to Indian political debate An extensive introduction biographical sketches of each figure and guides to further reading make this work a rich resource for anyone interested in India and the ways its leading political minds have grappled with the problems that have increasingly come to define the modern world *Makers of Modern Culture* Justin Wintle, 2002 This volume provides lively and clearly written expositions of those figures who have done most to shape our views in the period since 1914 Music cinema drama art fiction poetry and philosophy are just some of the fields covered *New Makers of Modern Culture* Justin Wintle, 2016-04-22

New Makers of Modern Culture is the successor to the classic reference works *Makers of Modern Culture* and *Makers of Nineteenth Century Culture* published by Routledge in the early 1980s The set was extremely successful and continues to be used to this day due to the high quality of the writing the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included *New Makers of Modern Culture* takes into full account the rise and fall of reputation and influence over the last twenty five years and the epochal changes that have occurred the demise of Marxism and the collapse of the Soviet Union the rise and fall of postmodernism the eruption of Islamic fundamentalism the triumph of the Internet Containing over eight hundred essay style entries and covering the period from 1850 to the present *New Makers of Modern Culture* includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley next to John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping runs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer Bernard Crick Edward Seidensticker and Paul

Preston In a few cases for example Michael Holroyd and Philip Larkin contributors are themselves the subject of entries With its global reach New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms

Makers of Modern Indian Religion in the Late Nineteenth Century Torkel Brekke,2002-12-05 This is a book about religious transformation in South Asia in the nineteenth century On the one hand a fundamental conceptual transformation in the world of religion among people who were exposed to English language and culture took place This transformation crystallized religious communities with sharp boundaries and distinct histories On the other hand the emerging feeling of religious communal identity motivated religious and lay leaders to work in the interest of the community This book is about both of these interrelated developments the conceptual change and the application of the new ideas to political discourse the construction and the politics of religious identity

Makers of modern medicine James Joseph Walsh,1915

The New Makers of Modern Strategy Hal Brands,2023-05-02 First published by Princeton in 1943 the collection of essays that constituted *Makers of Modern Strategy* has largely held the field as the key book that studied the means and ends of military power and thought and the historical figures that shaped that history The books in two editions have long been a staple of Princeton s backlist in international politics and strategic studies The first edition edited by Edward Mead Earle and subtitled *Military Thought from Machiavelli to Hitler* emerged out of a seminar of foreign policy and

security experts organized between Princeton and the Institute of Advanced Study in reaction to World War II as a global conflict. The subsequent edition edited by Peter Paret then at Stanford University was prepared in the early 1980s and subtitled *From Machiavelli to the Nuclear Age*. In that edition three essays were reprinted from the earlier book, four others were revised, and the remainder twenty-two essays were wholly new to reflect the updates in the field and also how the global political context had changed. The two books together are regarded as the founding and leading text in military and strategic studies containing influential essays by many of the best known scholars of the subject. The ambition of the new volume is to commission an entirely new edition of this classic reference work with 37 chapters organized into 5 sections covering key military leaders and the most important elements of strategic thinking since Thucydides and Sun Tzu. The field of strategic and military history has witnessed an intellectual renaissance in recent decades as the number of strategic challenges faced by the world has grown enormously. International politics has also changed. The Cold War ended and the Soviet Union disappeared. The United States entered a period of unipolarity only to see it challenged by the rise of new powers. China in particular. Terrorism, civil wars, so-called rogue states, insurgency and counter-insurgency, and cybersecurity all joined a growing list of strategic concerns. New technologies promise to upend our understanding of conflict. Furthermore, scholars have learned more about earlier periods from the classic thinkers of strategy to the struggles of great power war to the dynamics of world politics during the Cold War. Finally, scholarship on international politics, war and peace in the 20th century and after has become increasingly internationalized with the opening of new archives and the incorporation of new perspectives. The aim of this volume is to serve as an overview and stimulant to research in this field, one that encompasses the broader definitions of strategy in current research, reflects the current state of world politics, and also takes a more global and less Western perspective.
