South Africa and the Logic of Regional Cooperation James J. Hentz, 2005-07-19 In *South Africa and the Logic of Regional Cooperation* James J Hentz addresses changes in South Africa's strategies for regional cooperation and economic development since its transition from apartheid to democracy Hentz focuses on why the new South African government continues to make regional cooperation a priority and what methods this dominant state uses to pursue its neighborly goals While providing a synthetic overview of the history of regional cooperation in southern Africa Hentz considers the logic of cooperation more generally An extensive discussion of South African politics provides the context for Hentz's exploration of the more widely felt effects of domestic change Readers interested in the international organization of the politics and economy of southern Africa will find thought provoking material in this important book

Making Democracy Work Macroeconomic Research Group, 1993 MERG has become convinced that a sea change in economic policy is essential to generate growth in the next few years It can demonstrate that its proposed policy framework is both coherent and affordable The MERG proposals offer a radically different vision of the future of South Africa They have been designed to address the current imbalances through direct intervention in a way which would benefit all sections of the South African population within a short period of time MERG took the objectives of the democratic movement as its starting point The aim of the MERG framework is therefore to secure a rapid improvement in the quality of the daily lives of South Africa's poorest most oppressed and disadvantaged people The strategy stresses programmes to initiate job creation and training programmes for the unemployed improve the status of the poorest women in the rural areas improve the availability and quality of education health housing and electrification raise the level of wages of low income workers and dramatically improve the skills of employed workers

Rural Wage Employment in Developing Countries Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour markets focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their

political feasibility in each context **Post-Apartheid Southern Africa** Lennart Petersson,1998-01-29 This volume brings together some of the best known and highly regarded academics in the field to present a timely and comprehensive review of the prospects for economic integration and development in Southern Africa and to analyse alternative strategies and policies for the future It presents in depth country specific studies of Botswana Lesotho South Africa's Uneasy Alliance Martin Plaut,2012-10-31 The communist party in South Africa began as a revolutionary movement In exile in the 1960s and 1970s it took on significance its numbers never warranted through its relationship with the Soviet Union and the weapons it brought to the armed struggle Today it worries that it has been absorbed into the ANC machinery of government without being able to retain its own identity The unions of Cosatu were born out of the fight against poverty level wages of the 1970s Their culture comes from the shop floor and the democracy of the shop steward movement They played a critical role in ending apartheid through their links with the United Democratic Front and the grassroots groups in the townships African Nationalism Marxism Leninism and popular democracy are never easy ideological partners Yet the Alliance has survived and flourished The cost of this relationship has been endless disputes While each element of the Alliance pledges its support for the greater good it fights for its own corner The history of post apartheid South Africa is littered with examples of how this has been played out The overthrow of President Thabo Mbeki by Jacob Zuma in 2007 would have been unthinkable without the complex web of relationships that were developed within the Alliance As the ANC moves towards its elective conference in Mangaung in December 2012 tensions within the Alliance are at breaking point once more In theory this is a purely internal ANC party issue But candidates for the top job are battling it out and the support of the unions and the Communist Party is a critical element in their campaigns These battles can only be understood in the context of the Alliance an extraordinary but poorly understood movement **No More Tears** Richard Levin,Daniel Weiner,1997 This text demonstrates why incorporating extensive knowledge that exists in poor rural areas into development of land and reform policies is essential for truly democratic social and economic transformation **The Experience of Economic Redistribution** Clarence Tshitereke,2006-10-09 This book provides an analysis of the country s political economy in transition It documents the history of the gold mining industry s involvement in shaping the political landscape of South Africa and shows the degree to which the political transition was induced to put in place a new mode of regulation for capital accumulation In the process the victims of apartheid have now become victims of democracy s neo liberalism as the government is constrained from being developmental interventionist and redistributive **Politics and Government in South Africa** Mueni Wa Muiu,2023-06-20 Politics and Government in South Africa introduces readers to all aspects of government and politics in South Africa from local to provincial national and on to international considerations The perfect guide for students and general readers this textbook explains how South Africa s key institutions are governed and interact with each other and how important issues such as economics gender race and class shape relations between citizens and

government Grounded in history and leading theories and debates the book also brings in alternative perspectives from artists writers and popular culture to demonstrate the diverse ways in which issues of politics and social justice are engaged with within South Africa Written with the needs of students at the forefront each chapter includes Review and discussion questions Key terms and further resources Fun facts in a Did you know section Supplementary sources and quotations in a The Past as Present section Interactive and engaging Politics and Government in South Africa invites readers to consider what they would do in tackling issues such as land distribution peacekeeping South Africa's role in the African Union and military engagement abroad It is an essential read for undergraduate students studying Political Science International Relations and African Studies and for anyone looking to develop a deeper understanding of South Africa

Ownership and Governance of Companies Jonathan Michie, Vishnu Padayachee, 2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to

be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC's mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of *International Review of Applied Economics*

Public Policymaking in a Globalized World Robin J. Lewis, 2018-01-19 The inexorable advent of globalization has transformed the public policymaking process into a multi faceted challenge that transcends traditional policymaking boundaries and forces scholars experts and practitioners to redefine their field in terms of both theory and practice While every policy dilemma has a specific location in time and space most significant policy issues climate change food and water economic development global pandemics terrorism and violence and migration to name just a few now require a collective framing of the problem and a collaborative effort to take effective action The essays in *Public Policymaking in a Globalized World* offer valuable insights into how policymaking is evolving from a circumscribed field of inquiry into a truly global dialogue that can help stakeholders to focus on key issues that threaten the survival of our planet

Regions and Development Sheila Page, 2020-12-15 At the 1996 EADI Conference the papers presented in the World Trade and Trade Policy workshop looked at the new trends in regionalism from a variety of points of view for different institutions They considered the effects of regions their implications for policy and performance in the developing countries and for international economic institutions and tried to interpret them in terms of economic and political theory

End of Millennium Manuel Castells, 2010-01-26 This final volume in Manuel Castells trilogy with a substantial new preface is devoted to processes of global social change induced by the transition from the old industrial society to the emerging global network society Explains why China rather than Japan is the economic and political actor that is revolutionizing the global system Reflects on the contradictions of European unification proposing the concept of the network state Substantial new preface assesses the validity of the theoretical construction presented in the conclusion of the trilogy proposing some conceptual modifications in light of the observed experience
