## **Making Democracy Work:**

**Making Democracy Work** Robert D. Putnam, Robert Leonardi, Raffaella Y. Nanetti, 1994-05-27 A classic New York Times Seminal epochal path breaking a Democracy in America for our times The Nation From the bestselling author of Bowling Alone a landmark account of the secret of successful democracies Why do some democratic governments succeed and others fail In a book that has received attention from policymakers and civic activists in America and around the world acclaimed political scientist and bestselling author Robert Putnam and his collaborators offer empirical evidence for the importance of civic community in developing successful institutions Their focus is on a unique experiment begun in 1970 when Italy created new governments for each of its regions After spending two decades analyzing the efficacy of these governments in such fields as agriculture housing and healthcare they reveal patterns of associationism trust and cooperation that facilitate good governance and economic prosperity The result is a landmark book filled with crucial insights about how to make democracy work

**Making Democracy Work Better** Richard A. Couto, 2003-07-11 The decade of the 1980s marked a triumph for market capitalism As politicians of all stripes sought to reinvent government in the image of private enterprise they looked to the voluntary sector for allies to assuage the human costs of reductions in public policies of social welfare This book details the savage side of market capitalism in Appalachia and explains the social political and economic roles that mediating structures play in mitigating it Profiling the work of twenty three such mediating structures community based organizations that battled to provide social safety nets fight environmental assaults and upgrade the education and job skills of Appalachian residents Richard Couto distills the practical lessons to be found in their successes and shortcomings Couto argues that a broader set of democratic dimensions be used in taking the measure of civil society and public policy in the twenty first century He shows that mediating structures promote the democratic prospect of reduced inequality and increased communal bonds when they provide and advocate for new forms and increased amounts of social capital the public goods and moral resources that we invest in one another as members of a community

*Making Democracy Work* Robert D. Putnam, 1993 Why do some democratic governments succeed and others fail In a book that has received attention from policymakers and civic activists in America and around the world Robert Putnam and his collaborators offer empirical evidence for the importance of civic community in developing successful institutions Their focus is on a unique experiment begun in 1970 when Italy created new governments for each of its regions After spending two decades analyzing the efficacy of these governments in such fields as agriculture housing and health services they reveal patterns of associationism trust and cooperation that facilitate good governance and economic prosperity

*Making Democracy Work for Pro-poor Development* Manmohan Singh, Commonwealth Secretariat, 2003 This report focuses on how to make democracy work for pro poor development and on development policies that in themselves uphold and promote democratic values It argues that development and democracy are not only goals in their own right but must also be mutually reinforcing It says that

governments the private sector civil society and the international community all have a vital role to play in delivering development and democracy and calls for responsibility partnership and concrete actions The report contains recommendations for action at both national and international levels It is of interest to policy makers multilateral and bilateral agencies the private sector civil society organisations and all those committed to development democracy and the achievement of the Millennium Development Goals

*Why Politics Matters* Gerry Stoker, 2006-08-22 Achieving mass democracy was the great triumph of the twentieth century Learning to live with it will be the greatest achievement of the twenty first century A rising tide of discontent is posing a major crisis for systems of mass democracy the evidence is clear to see in reduced turnout and party membership and in opinion surveys The failures of politicians have played their part but Gerry Stoker argues equally important are the dysfunctional political stances and styles adopted by many citizens Democratic politics he argues is doomed to disappoint because it involves collective decision making demands complicated communication and generally produces a messy compromise one size fits no one So what is the solution Stoker suggests that democracy and the political class must create a new politics making it as easy as possible for as many people as possible to express and debate their political preferences

*Making Democracy Work* National Federation of Settlements and Neighborhood Centers, 1968

**On the Move** Henry Veltmeyer, 2007-01-01 With irony insight and elegant simplicity Veltmeyer shows us how the power of money and the power of collective commitment interact in the sweepstakes of social history Jan Knippers Black Monterey Institute for International Studies

**Making Social Capital Work** Carles Boix, Daniel N. Posner, 1996

*The Italian/American Experience* Louis J. Gesualdi, 2012-04-13 The Italian American Experience A Collection of Writings represents a meaningful attempt to inform Italian Americans about their group s varied experiences in America This book unlike many works on the Italian American experience contains writings that explain why popular negative notions of Italian American life are inaccurate The Italian American Experience lists a number of organizations and journals specializing in Italian American culture and provides brief descriptions of many leading researchers in the field of Italian American studies This unique text also contains an annotated bibliography of key books that deal with the lives of Italians and Italian Americans This collection of eleven works offers readers an in depth view of Italian American culture and heritage

*Social Trust and Human Communities* Trudy Govier, 1997-09-09 Govier offers a general account of trust in a variety of social contexts and explores the negative effects of distrust on society For example she examines the role of trust in relationships between doctors and patients and between politicians and constituents With well chosen examples ranging

from the Oka crisis to Meech Lake Govier points out that distrust in politics has been especially prevalent and while it may be well founded can have pernicious effects Social Trust and Human Communities will be of great interest to students and scholars in the areas of applied ethics social theory and politics Generating Social Capital M. Hooghe,D.

Stolle,2003-05-15 Social capital networks of civic engagements norms of reciprocity and attitudes of trust is widely seen as playing a key role for the health of democracy While many authors have examined the consequences of social capital there is a pressing need to explore its sources This collection brings together leading American and European scholars in the first comparative analysis of how social trust and other civic attitudes are generated The contributors to this volume examine the generation of social capital from two directions society based approaches that emphasize voluntary associations and institutional approaches that emphasize policy **Building Social Capital in Thailand** Danny Unger,1998-09-28 Between

1984 and 1994 Thailand had the most rapid economic expansion in the world This 1998 book offers an explanation of this successful record of economic growth in Thailand and in Southeast Asia more generally The book explains why Thai leaders adopted a market driven strategy from the late 1950s and also shows how the overseas Chinese in Thailand built on their community s social capital to overcome the market failures common to all developing countries Unger takes an interdisciplinary approach building on the literatures of social capital and embedded autonomy He considers the unique organization of Thai society and the impact this has had on the country s institutions and their political and economic outcomes The book includes detailed analysis of the financial and textile sectors as well as the development of heavy industries and transportation infrastructure *Governments and Markets in East Asia* Jungug Choi,2007-01-24 The Asian

economic crisis of 1997 to 1998 had a dramatic impact on the region s economies and its politics This book is a comparative study of five countries experiences making important contributions to key theoretical debates on the relationship between economic performance and practical stability **Worlds Apart** Cynthia M. Duncan,2015-01-13 First published in 1999 Worlds Apart examined the nature of poverty through the stories of real people in three remote rural areas of the United States New England Appalachia and the Mississippi Delta In this new edition Duncan returns to her original research interviewing some of the same people as well as some new key informants Duncan provides powerful new insights into the dynamics of poverty politics and community change Duncan through in depth investigation and interviews concludes that only a strong civic culture a sense among citizens of community and the need to serve that community can truly address poverty Moving and troubling Duncan has created a remarkable study of the persistent patterns of poverty and power Kirkus Reviews The descriptions of rural poverty in Worlds Apart are interesting and read almost like a novel Choice

**Contemporary Political Concepts** Georgina Blakeley,Valerie Bryson,2002-04-20 The language of political debate and analysis has changed dramatically in recent years Today both academics and practitioners have largely abandoned the vocabulary of the left and replaced it with a set of concepts that structure debate and set the political agenda Thus the world

economy is discussed in terms of globalisation instead of international capitalism Moreover the apparently benign concepts of civil society citizenship and stakeholder have replaced those of class and class conflict poverty is about social exclusion rather than exploitation and consumer choice and worker empowerment have replaced the pursuit of class interests In today's political climate socialism is seen as old fashioned or utopian In contrast capitalism is seen as realistic and the third way is presented as the solution to all our ills This book explores the real issues behind these catchphrases of modern politics explaining what they mean and offering a critique of the ideology of which they are a part **Culture and Politics** NA

NA,2019-06-12 Political culture is one of the central but most difficult concepts in political science Culture and Politics A Reader explores this concept by compiling previously published works that focus on the core themes of political culture research Concepts and Applications Culture and Globalization Popular Culture Civil Society and Social Capital Social Movements and Collective Identity Culture and Political Change and Culture and Rationality Each section includes general and article introductions as well as a suggested reading list Culture and Politics A Reader provides a handy resource for students and teachers at both the graduate and under graduate level The Oxford Handbook of British Politics Matthew

Flinders,2009-07-16 The Oxford Handbook of British Politics provides the most sophisticated and up to date analysis of British politics to date Essential for all those working in the area **Fixing Fragile States** Seth D. Kaplan,2008-06-30

Fragile states are a menace Their lawless environments spread instability across borders provide havens for terrorists threaten access to natural resources and consign millions of people to poverty But Western attempts to reform these benighted places have rarely made things better Kaplan argues that to avoid revisiting the carnage and catastrophes seen in places like Iraq Bosnia and the Congo the West needs to rethink its ideas on fragile states and start helping their peoples build governments and states that actually fit the local landscape Fixing Fragile States lays bare the fatal flaws in current policies and explains why the only way to give these places a chance at peace and prosperity is to rethink how development really works Flawed governance systems not corrupt bureaucrats or armed militias are the cancers that devour weak states The cure therefore is not to send more aid or more peacekeepers but to redesign political economic and legal structures to refashion them so they can leverage local traditions overcome political fragmentation expand governance capacities and catalyze corporate investment After dissecting the reasons why some states prosper and others sink into poverty and violence Fixing Fragile States visits seven deeply dysfunctional places including Pakistan Bolivia West Africa and Syria and explains how even the most desperate of them can be transformed **The Empire of Stereotypes** R. Casillo,2006-05-13

This book places Germaine de Stael's influential novel Corrine or Italy 1807 in relation to preceding and subsequent stereotypes of Italy as seen in the works of Northern European and American travel writers since the Renaissance
