Anderson, 2015-05-20 Language Identity and Choice Raising Bilingual Children in a Global Society provides scholarly insight into how foreign language acquisition influences an individual's understanding of identity within the African American family Rooted in sociolinguistic communication and bilingual theoretical perspectives Kami J Anderson describes how foreign language acquisition development and use shape how Africans and African Americans describe and proscribe their identity and in turn the identity of the family Language Identity and Choice looks specifically at how family language choices in particular choosing to be bilingual affect family communication and perception of identity from people outside of the family Anderson combines both extensive research and her personal experience of being bilingual to challenge the existing notions of what it means to be Black when personal experiences with race and ethnicity extend beyond the boundaries of the native country or culture **Bilingual Education** María Estela Brisk, 2006-04-21 Bilingual Education From Compensatory to Quality Schooling Second Edition maintains its original purpose of synthesizing the research on successful bilingual education in order to demonstrate that quality bilingual education is possible and desirable Findings from a wide range of studies are integrated to provide a clear picture of bilingual education in today's schools and a professional understanding of the foundations and issues surrounding bilingual education programs The recommendations offered provide a comprehensive basis for planning developing improving and evaluating bilingual programs For clarity these recommendations are discussed with respect to the whole school the curriculum and the classroom but it is stressed that they need to be applied in a holistic way because they depend on each other All educators who work or will work with
