*The Making of a Christian Aristocracy* Michele Renee Salzman, 2009-06-30 What did it take to cause the Roman aristocracy to turn to Christianity changing centuries old beliefs and religious traditions Salzman takes a fresh approach to this much debated question by focusing on a sampling of individual aristocratic men and women as well as on writings and archeological evidence

**The Making of a Christian Aristocracy** Michele Renee Salzman, 2002 What did it take to cause the Roman aristocracy to turn to Christianity changing centuries old beliefs and religious traditions Michele Salzman takes a fresh approach to this much debated question Focusing on a sampling of individual aristocratic men and women as well as on writings and archeological evidence she brings new understanding to the process by which pagan aristocrats became Christian and Christianity became aristocratic Roman aristocrats would seem to be unlikely candidates for conversion to Christianity Pagan and civic traditions were deeply entrenched among the educated and politically well connected Indeed men who held state offices often were also esteemed priests in the pagan state cults these priesthods were traditionally sought as a way to reinforce one's social position Moreover a religion whose texts taught love for one's neighbor and humility with strictures on wealth and notions of equality would not have obvious appeal for those at the top of a hierarchical society Yet somehow in the course of the fourth and early fifth centuries Christianity and the Roman aristocracy met and merged Examining the world of the ruling class its institutions and resources its values and style of life Salzman paints a fascinating picture especially of aristocratic women Her study yields new insight into the religious revolution that transformed the late Roman Empire

**Augustine and the Catechumenate** William Harmless, 2014-12-30 As one of the most influential thinkers in Christian history St Augustine 354-430 had a flair for teaching and meditated deeply on the mysteries of the human heart This study examines a little known side of his career his work as a teacher of candidates for baptism In the revised edition of this seminal book both the text and notes have been revised to better reflect the state of contemporary scholarship on Augustine liturgical studies and the catechumenate both ancient and modern This edition also includes new findings from some of the recently discovered sermons of Augustine and incorporates new perspectives from recent research

researchers in the fields of medieval studies legal and literary interpretation legal history and the history of European intellectual life from ancient to modern times      Pagans and Christians in Late Antique Rome Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century      *Official Power and Local Elites in the Roman Provinces* Rada Varga, Viorica Rusu-Bolindeț, 2016-11-25 Presenting a new and revealing overview of the ruling classes of the Roman Empire this volume explores aspects of the relations between the official state structures of Rome and local provincial elites The central objective of the volume is to present as complex a picture as possible of the provincial leaderships and their many and varied responses to the official state structures The perspectives from which issues are approached by the contributors are as multiple as the realities of the Roman world from historical and epigraphic studies to research of philological and linguistic interpretations and from architectural analyses to direct interpretations of the material culture While some local potentates took pride in their relationship with Rome and their use of Latin exhibiting their allegiances publicly as well as privately others preferred to keep this display solely for public manifestation These complex and complementary pieces of research provide an in depth image of the power mechanisms within the Roman state The chronological span of the volume is from Rome's Republican conquest of Greece to the changing world of the fourth and fifth centuries AD when a new ecclesiastical elite began to emerge      **Early Christianity** Mark Humphries, 2021-01-01 Dive into the fascinating origins of Christianity with *Early Christianity* by Mark Humphries a comprehensive exploration of the religion's formative years that sheds light on its historical context key figures and foundational teachings Join the author as he delves into the early centuries of the Christian movement uncovering the diverse beliefs practices and challenges faced by the early followers of Jesus Set against the backdrop of the ancient world *Early Christianity* offers readers a window into the dynamic and rapidly evolving landscape of the first few centuries AD From the teachings of Jesus and the spread of his message to the rise of Christian communities and the persecution they faced Humphries traces the trajectory of Christianity from its humble beginnings to its emergence as a major religious force Themes of faith community and resilience permeate the narrative inviting readers to explore the enduring appeal of Christianity and its profound impact on Western civilization Through Humphries insightful analysis and engaging storytelling readers gain a deeper understanding of the cultural social

**Group Identity and Religious Individuality in Late Antiquity** Eric Rebillard, Jorg Rupke, 2015 To understand the past we necessarily group people together and consequently frequently assume that all of its members share the same attributes In this ground breaking volume Eric Rebillard and Jorg Rupke bring renowned scholars together to challenge this norm by seeking to rediscover the individual and to explore the dynamics between individuals and the groups to which they belong

*Colors and Textures of Roman North Africa* Elizabeth A. Clark, Zachary B. Smith, 2023-09-08 This book serves two purposes first it celebrates the career of the late Maureen Tilley second it provides a state of the field look at some of the latest scholarship on Christian North Africa in late antiquity The chapters written by both senior scholars and the next generation of North African researchers fills gaps in some of our understandings of the colorful people places and disputes that arose in the unique environment of Christian North Africa The book centers around Augustine Donatist studies and North African biblical interpretation representing Tilley's major areas of interest while also ensuring coverage of Tertullian a major figure in the North African church and one of Tilley's hobbyhorses and the pilgrimages to North Africa and other places It contributes to the field's by providing new scholarship from some of the biggest names in Christian North Africa studies Patout Burns Robin Jensen Bill Tabbernee Anthony Dupont and Allan Fitzgerald and in Patristic early Christian studies writ large Blake Leyerle and Geoffrey Dunn while demonstrating the new

trajectories of Christian North Africa research from early career Alden Bass and emerging Colum Dever scholars The editors were Tilley s dissertation director the late Liz Clark and one of her last mentees Zach Smith so the entire collection has a meta view of academic genealogy knowledge flowing from Tilley s mentor through colleagues and mentees and down through and to the next generation who carry on those legacies From Rome to Byzantium AD 363 to 565 A. D. Lee,2013-01-15 Between the deaths of the Emperors Julian 363 and Justinian 565 the Roman Empire underwent momentous changes Most obviously control of the west was lost to barbarian groups during the fifth century and although parts were recovered by Justinian the empire s centre of gravity shifted irrevocably to the east with its focal point now the city of Constantinople Equally important was the increasing dominance of Christianity not only in religious life but also in politics society and culture Doug Lee charts these and other significant developments which contributed to the transformation of ancient Rome and its empire into Byzantium and the early medieval west By emphasising the resilience of the east during late antiquity and the continuing vitality of urban life and the economy this volume offers an alternative perspective to the traditional paradigm of decline and fall The Oxford Handbook of Early Christian Ritual Rikard Roitto,2018-11-08 Scholars of religion have long assumed that ritual and belief constitute the fundamental building blocks of religious traditions and that these two components of religion are interrelated and interdependent in significant ways Generations of New Testament and Early Christian scholars have produced detailed analyses of the belief systems of nascent Christian communities including their ideological and political dimensions but have by and large ignored ritual as an important element of early Christian religion and as a factor contributing to the rise and the organization of the movement In recent years however scholars of early Christianity have begun to use ritual as an analytical tool for describing and explaining Christian origins and the early history of the movement Such a development has created a momentum toward producing a more comprehensive volume on the ritual world of Early Christianity employing advances made in the field of ritual studies The Oxford Handbook of Early Christian Ritual gives a manifold account of the ritual world of early Christianity from the beginning of the movement up to the fifth century The volume introduces relevant theories and approaches central topics of ritual life in the cultural world of early Christianity and important Christian ritual themes and practices in emerging Christian groups and factions

**Chastity** Nancy van Deusen,2008-02-28 Chastity as a topic is an ideal interdisciplinary consideration since it accesses iconographical representation the philosophical issues of purity morality and of innocence the legal issues of loss and punishment the historical issues of celibacy and the legislation that topic evoked as well as the role of chastity as a literary topos in Late Antiquity as well as the Middle Ages for example in medieval commentary traditions and within medieval vernacular literatures The topic of Chastity as well as its opposing characteristics thus provides an arena for a discussion of the transmission of Ovid and the commentaries this author provoked in the Middle Ages the interpretation of images illustrating legal texts cross cultural enquiries such as the reciprocity between Christian Muslim and Judaic interpretations of

temperance continence and abstinence and the theological legal issue of God's rights in excising Adam and Eve from the Garden of Eden Contributors Nancy van Deusen Frank T Coulson Marcia L Colish Uta Renate Blumenthal Th r se Anne Druart Claudia Bornholdt Susan L Engle Cristian Gaspar and Rafael Chodos

**Children and Asceticism in Late Antiquity** Ville Vuolanto, 2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life

*History and the Study of Religion* Stanley Stowers, 2024 How does one understand religion Can one explain religion How does one understand the craft and discipline of the historian

How can one best bring together the study of religion with the craft and discipline of the historian I am a historian who works in the study of religion and believe that the present intellectual moment offers enormous in some ways unprecedented opportunities both in the study of religion and historiography But at the same time difficulties and dangers loom together with the opportunities My specialty and prime set of examples lie in the study of ancient Mediterranean religion if indeed there is something that can rightly be called Mediterranean religion or even called religion Many specialists in the study of religion and also many of those who study ancient cultures doubt or even reject outright religion as a cross historical category on the one hand and on the other anything common about religion across the ancient Mediterranean And some cognitive scientists who against religion specialists have argued for the centrality of gods to religion then agree with the skeptics that religion is not a coherent social object a social kind I will argue that long discredited forms of anti realism and untenable anthropocentrism haunt both groups Among other areas I work in Christianity and Judaism Do they belong to Mediterranean religion One can easily see how coming to an understanding of what religion is and what Mediterranean religion is form key questions I will argue that religion is a robust realistic entity a social kind and that ancient Mediterranean religion even with all of its great diversity operated with some key common principles It is no secret that Christianity and Judaism have presented themselves as unique and essentially untouched by an inferior and degenerate religiosity that characterized everyone else in the Mediterranean History looks different when one dispenses with such normatively heavy freight and situates the two within rather than outside of Mediterranean religion

**Dining at the End of Antiquity** Nicholas Hudson, 2024 The history of dining is a story that cannot be told without archaeology Surviving texts tell of the opulent banquets of the wealthy elite but little attention is given to the simpler more intimate social gatherings of domestic invitation dinners This is especially true of the lower classes who are largely ignored by our sources We can however provide a voice for the underprivileged by turning to the material detritus of ancient cultures that reflects their social history Dining at the End of Antiquity brings together the material culture and literary traditions of Romans at the table to reimagine dining culture as an integral part of Roman social order Through a careful analysis of the tools and equipment of dining Nicholas Hudson uncovers significant changes to the way different classes came together to share food and wine between the fourth and sixth centuries Reconstructing the practices of Roman dining culture Hudson explores the depths of new social distances between the powerful and the dependent at the end of antiquity
