**The Making of a Saint** Catia Galatariotou, 2004-01-29 A study of how a Byzantine holy man became a saint

**The Ashgate Research Companion to Byzantine Hagiography** Stephanos Efthymiadis, 2020-02-25 For an entire millennium Byzantine hagiography inspired by the veneration of many saints exhibited literary dynamism and a capacity to vary its basic forms The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political social and literary spheres The selection of saintly heroes an interest in depicting social landscapes and the modulation of linguistic and stylistic registers captured the voice of homo byzantinus down to the end of the empire in the fifteenth century The seventeen chapters in this companion form the sequel to those in volume I which dealt with the periods and regions of Byzantine hagiography and complete the first comprehensive survey ever produced in this field The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly community of Byzantinists medievalists historians of religion and theorists of narrative It highlights the literary dimension and the research potential of a representative number of texts not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance

**The Icons of Their Bodies** Henry Maguire, 2000-05-28 The Byzantines surrounded themselves with their saints invisible but constant companions who were made visible by dreams visions and art The composition and presentation of this imagined gallery followed a logical structure a construct that was itself a collective work of art created by Byzantine society The purpose of this book is to analyze the logic of the saint s image in Byzantium both in portraits and in narrative scenes Here Henry Maguire argues that the Byzantines gave to their images differing formal characteristics of movement modeling depth and differentiation according to the tasks that the icons were called upon to perform in the all important business of communication between the visible and the invisible worlds The book draws extensively on sources that have been relatively little utilized by art historians It considers both domestic and ecclesiastical artifacts showing how the former raised the problem of access by lay men and women to the supernatural and fueled the debates concerning the role of images in the Christian cult Special attention is paid to the poems inscribed by the Byzantines upon their icons and to the written lives of their saints texts that offer the most direct and vivid insight into the everyday experience of art in Byzantium The overall purpose of the book is to provide a new view of Byzantine art one that integrates formal analysis with both theology and social history

**Monasticism** Alice-Mary Talbot,2024-10-02 This volume includes seventeen essays on Byzantine monasticism focusing on the 9th to 15th centuries Envisaged as a companion Variorum volume to Talbot s Women and Religious Life in Byzantium 2001 this compendium complements its predecessor by focusing more attention on male monasteries hermits and holy mountains while offering some pioneering studies of female patrons rural nuns and the links of many Byzantine women to

Mount Athos The volume also complements Talbot's 2019 monograph *Varieties of Monastic Experience in Byzantium 800-1453* by offering detailed analyses of topics that could only be briefly addressed in that book. Introductory essays include an overview of the historical development of Byzantine monasteries and holy mountains emphasising the intertwining of monasticism with urban and rural society. Subsequent essays explore the regimen at coenobitic monasteries while paying considerable attention to the less well-known lifestyles of hermits especially those on holy mountains. Other topics include monastery gardens and horticulture the culture of the refectory challenges for adolescent novices factors influencing the choice of a monastery's foundation site female patronage of monastery construction and restoration the conversion of monasteries from male to female and vice versa rules regarding personal poverty for monastics and the choice of a monastic name.

The Cult of Saints in Late Antiquity and the Early Middle Ages James Howard-Johnston, Paul Antony Hayward, 2000-01-07 This book contains eleven essays prefaced by a general introduction on a set of related themes: the characteristic traits and diverse functions of holy men; the fashioning of saints out of a small minority of holy men and a number of other individuals of high social status but with more dubious spiritual credentials; the literary processes involved in the construction of hagiographical texts; the role of hagiography in the creation and diffusion of cults and the worldly interests and other purposes which were served by hagiographical texts and the cults which they propagated. These themes are explored across a wide range of social and cultural milieux extending from the late antique east Mediterranean through the early medieval Frankish world and Byzantium to Russia and Islam in the high middle ages. The work of Peter Brown in particular his article *The Rise and Function of the Holy Man in Late Antiquity* first published in 1971 forms a constant point of reference acknowledged by the contributors as having irradiated the whole field with fresh provocative and illuminating ideas.

**History as Literature in Byzantium** Ruth Macrides, 2016-12-05 Although perceived since the sixteenth century as the most impressive literary achievement of Byzantine culture historical writing nevertheless remains little studied as literature. Historical texts are still read first and foremost for nuggets of information as main sources for the reconstruction of the events of Byzantine history. Whatever can be called literary in these works has been considered as external and detachable from the facts. The classical tradition inherited by Byzantine writers the features that Byzantine authors imitated and absorbed are regarded as standing in the way of understanding the true meaning of the text and furthermore of contaminating the reliability of the history. Chronicles whose language and style are anything but classicizing have been held in low esteem for they are seen as providing a mere chronological exposition of events. This book presents a set of articles by an international cast of contributors deriving from papers delivered at the 40th annual Spring Symposium of Byzantine Studies. They are concerned with historical and visual narratives that date from the sixth to the fourteenth century and aim to show that literary analyses and the study of pictorial devices far from being tangential to the study of historical texts are preliminary to their further study exposing the deeper structures and purposes of these texts.

**Theophylact of Ochrid**

Margaret Mullett, 2016-12-05 Few works exist on Byzantine literature as literature and still fewer studies of individual texts This reading of the letter collection c 1090 c 1110 of Theophylact of Ochrid employs a variety of approaches to characterise a work which is both a literary artefact in a long Greek tradition and the only trace of a complex network of friends colleagues patrons and clients within Byzantine Bulgaria and also within the empire as a whole These letters are of great importance from the point of view of local economic or ecclesiastical history relations with the Slavs the arrival of the First Crusade but have not hitherto been studied as an example of Byzantine letter writing This was a genre taken seriously by Byzantines offering us unique insight into the mentality of the Byzantine elite but also into what the Byzantines regarded as literature This book is important as an attempt to raise the status of the study of Byzantine literature and of letters within that literature It is a first attempt to place an epistolary text in a succession of literary and historical contexts its aim too is to probe the reliability of any rhetorical text for straightforward biography especially at the time of the revival fiction in Byzantium At the heart of the book is an analysis of the personal network of Theophylact as presented in the collection with further methodological discussion of network analysis in medieval texts

**Letters, Literacy and Literature in Byzantium** Margaret Mullett, 2023-06-09 These studies look at general problems of reading Byzantine literature at literacy practices and the literary process but also at individual texts The past thirty years have seen a revolution in the way Byzantine literature has been viewed no longer is it considered a decadent form of classical literature or a turgid precursor of modern Greek literature There are still prejudices to overcome that there was no literary public or that Byzantium had no drama or humour but Byzantine texts are now read as literature in the social context of literacy and book culture One genre is treated here more fully the letter Derrida said that letters represent all literature In these studies epistolography is examined from the point of view of genre of originality of communication and as evidence for political history Other genres touched on include the novel historiography parainesis panegyric and hagiography The section on literary process includes essays on genre patronage and rhetoric and the section on literacy practices deals with both writing and reading The collection includes one unpublished lecture which acts as introduction and additional notes and comments

Sanctity and Pilgrimage in Medieval Southern Italy, 1000-1200 Paul Oldfield, 2014-04-30 This book integrates the analysis of sanctity with that of pilgrimage offering important new insights into society cross cultural interaction and faith

relating to the social history of the Byzantine empire Offers groundbreaking theoretical and empirical research in the study of Byzantine society Includes helpful glossaries of sociological theoretical terms and Byzantine medieval terms The Ashgate Research Companion to Byzantine Hagiography Professor Stephanos Efthymiadis, 2013-07-28 Hagiography is the most abundantly represented genre of Byzantine literature and it offers crucial insight to the development of religious thought and practice social and literary life and the history of the empire It emerged in the fourth century with the pioneering Life of St Antony and continued to evolve until the end of the empire in the fifteenth century and beyond The appeal and dynamics of this genre radiated beyond the confines of Byzantium and it was practised also in many Oriental and Slavic languages within the orbit of the broader Byzantine world This companion is the work of an international team of specialists and represents the first comprehensive survey ever produced in this field It consists of two volumes and is addressed to both a broader public and the scholarly community of Byzantinists Medievalists historians of religion and theorists of the narrative This first volume covers the authors and texts of the four distinctive periods during which Greek Byzantine hagiography developed as well as the hagiography produced in Oriental and Slavic languages and in geographical milieux around the periphery of the empire from Italy to Armenia Volume II addresses questions of genres and the social and other contexts of Byzantine hagiography *Isaac Komnenos Porphyrogennetos* Valeria Flavia Lovato, 2024-10-01 Twelfth century Byzantium is characterized by a striking artistic vitality and profound socio political changes The Constantinopolitan elites led by the Komnenian dynasty initiated by Alexios I were the driving force behind the renewed intellectual landscape and power dynamics of the century Despite the wealth of studies devoted to the Komnenians the sebastokrator Isaac 1093 after 1152 has received limited attention in modern scholarship Yet Isaac is a fascinating figure at the crossroads of different worlds He was an intellectual the author of the first running commentary on the Iliad ever written in Byzantium He was a patron sponsoring magnificent buildings and supporting artists in and outside the capital He was a would be usurper attempting to seize the throne several times He was a shrewd diplomat forging alliances with Armenian Turkish and Latin rulers Modern scholars have so far failed to see the interplay between Isaac s multiple personae Isaac the scholar is rarely brought into conversation with Isaac the usurper Isaac the patron or Isaac the world traveller Bringing together experts from a range of disciplines this book fills a significant gap in the literature As the first comprehensive study of one of the protagonists of the Komnenian era it is essential reading for students of the Byzantine Empire In addition the portrait of Isaac presented here provides scholars of pre modern civilizations with a relevant case study By exposing the permeability of the theoretical and geographical borders we use to conceptualize the past Isaac epitomizes the interconnectedness at the heart of the so called Global Middle Ages
