## **Making Of Europe An Introduction To The History Of European Unity:**

*The Making of Europe* Christopher Dawson, 2002 Christopher Dawson concludes that the period of the fourth to the eleventh centuries commonly known as the Dark Ages is not a barren prelude to the creative energy of the medieval world. Instead he argues that it is better described as ages of dawn for it is in this rich and confused period that the complex and creative interaction of the Roman empire, the Christian Church, the classical tradition and barbarous societies provided the foundation for a vital unified European culture. In an age of fragmentation and the emergence of new nationalist forces, Dawson argued that if our civilization is to survive it is essential that it should develop a common European consciousness and sense of historic and organic unity. But he was clear that this unity required sources deeper and more complex than the political and economic movements on which so many had come to depend and he insisted prophetically that Europe would need to recover its Christian roots if it was to survive. In a time of cultural and political ambiguity, *The Making of Europe* is an indispensable work for understanding not only the rich sources but also the contemporary implications of the very idea of Europe.

**THE MAKING OF EUROPE. AN INTRODUCTION TO THE HISTORY OF EUROPEAN UNITY. BY CHRISTOPHER DAWSON.** Christopher Dawson, 1939      MAKING OF EUROPE CHRISTOPHER. DAWSON, 2018      *The Making of Europe* Christopher Dawson, 2017-07-23 Excerpt from *The Making of Europe An Introduction to the History of European Unity* The art of the catacombs is the first outward manifestation of Christian culture and shows in a remarkable way how the external forms of the old Roman Hellenistic culture were assimilated and modified by the new Spiritual forces. Early Christian art took over the traditional commonplaces of the Hellenistic house decorator and infused them with a profound Spiritual meaning. The subjects are mere generalised types or symbols: a fish, a dove or a figure borrowed from heathen mythology, the value of which consists entirely in their hieratic and mystical significance to the initiated. Of these figures the most popular is that of a woman in an attitude of prayer, the orans, a figure that symbolised at once the soul of the deceased, the freed and enlightened Spirit of man and also the Virgin Church, the Bride of the Spirit. **The Boundaries of Europe** Pietro Rossi, 2015-04-24 Europe's boundaries have mainly been shaped by cultural religious and political conceptions rather than by geography This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization or the end of the explicit endeavor to Europeanize the world From the decline of the Roman Empire to the polycentrism of today's world the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from mare nostrum to a frontier between nations Scandinavia eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration migratory movements cultural exchanges and war The Boundaries of Europe edited by Pietro Rossi is the first installment in the ALLEA book series Discourses on Intellectual Europe which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region

**Finding Europe** Anthony Molho, Diogo Ramada Curto, Niki Koniordos, 2007 In the last decade or so many books have been devoted to the history of Europe Two conceptual axes predominate in a large number of these accounts a discourse focusing on Europe's values and another discourse fashioned largely in opposition to the first which emphasizes the process of European construction The first conceives of Europe's past teleologically as a process by which certain values Christian ethics individualism capitalism tolerance republicanism due process etc were affirmed and came to define European culture The second approach rejects the discourse on values emphasizes the post Enlightenment emergence of the concept of Europe and the political and ideological implications in its continuous redefinitions and re-elaborations during the past two or more centuries This volume offers new approaches that integrate the long temporal dimension of the values based approach albeit devoid of its teleological element with the constructivist interpretation
