Making Of Social Movements In Latin America Identity Strategy And Democracy:

The Making Of Social Movements In Latin America Arturo Escobar, 2018-02-19 This book paying attention to the axes of identity strategy and democracy grew out of the authors shared and growing interest in contemporary social movements and the vast theoretical literature on these movements produced during the 1980s particularly in Latin America and Western Europe

The Making Of Social Movements In Latin America Arturo Escobar, 1992-08-25 During the last decade Latin American social movements have brought about a profound transformation in the nature and practice of protest and collective action This book surveys the full spectrum of movements in Latin America today from peasant and squatter movements to women s and gay movements as well as environmental and civic movements examining how this diverse mosaic of emergent social actors has prompted social scientists to rethink the dynamics of Latin American social and political change Whereas the prevailing theories of social movements have largely drawn on Western cases this volume includes the work of prominent Latin American scholars and incorporates analytical perspectives originating in the region Contributors discuss the three dimensions of change most commonly attributed to Latin American social movements in the 1980s their role in forging collective identities their innovative social practices and political strategies and their actual or potential contributions to alternative visions of development and to the democratization of political institutions and social relations This interdisciplinary text provides both specialists and students of social movements with a unique comprehensive and accessible collection of essays that is unprecedented in theoretical and empirical scope It will be useful in a wide range of graduate and advanced undergraduate courses in Latin American studies comparative politics sociology and anthropology development studies political economy and contemporary political and cultural theory

Theorizing Social Movements Joe Foweraker, 1995-03-20 Examines the historic links between the civil rights movements in Northern Ireland and the US

Latin American Social Movements Hank Johnston, Paul Almeida, 2006 The two current trends of democratization and deepening economic liberalization have made Latin American countries a ground for massive defensive mobilization campaigns and have created new sites of popular struggle In this edited volume on Latin American social movements original chapters are combined with peer reviewed articles from the well regarded journal Mobilization Each section represents a major theme in Latin American social movement research Original chapters discuss the Madres de Plaza de Mayo movement in Argentina and the Zapatista movement in Chiapas Mexico Also included in the book s coverage of the region s major movements are los piqueteros and antisweatshop labor organizing This is the first study to focus closely on the related issues of neoliberal globalization democratization and the workings of transnational advocacy networks in Latin America

Mexico, Central, and South America: Social movements Jorge I. Domínguez, 2001 Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region It examines

the developments of the past twenty years such as a renewed upswing in popular mobilization the ending of violent conflicts and military governments new struggles and a relatively more democratic climate It shows that from southern Chiapas to Argentina social movements in the 1990s and especially in the 2000s have reached new heights of popular participation There is a lack of research on the politics of this region in the contemporary era of globalization this volume partially fills the void and offers a rich resource to students scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty first century The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle s for instance the main protagonists in the campaigns the grievances of the population and the outcomes of the struggles This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries issues and social groups These themes include 1 theory of Latin American social movements 2 neoliberalism 3 indigenous struggles 4 women s movements 5 movements and the State 6 environmental movements and 7 transnational mobilizations

Research Handbook on Law, Movements and Social Change Steven A. Boutcher, Corey S. Shdaimah, Michael W. Yarbrough, 2023-07-01 The study of law and social movements provides an ideal lens for rethinking fundamental questions about the relationship between law and power This Research Handbook takes up that challenge framing a new more global dynamic reflexive and contextualised phase of social movement studies

The Myth of Civil Society O. Encarnación, 2015-12-25 Almost irrespective of the geographic setting the debate about the future of democracy in post authoritarian societies is increasingly tied to the strength of civil society A strong civil society is thought to be crucial to the emergence of successful democracies while a weak civil society is deemed the cause of flawed or frozen democracies Using contrasting evidence from Spain and Brazil this study challenges these widespread assumptions about contemporary democratization It argues that it is the performance of political institutions rather than the configuration of civil society that determines the consolidation of democratic regimes

The Oxford Handbook of the Sociology of Latin America Xóchitl Bada, Liliana Rivera Sánchez, 2021 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world

Reorganizing Popular Politics Ruth Berins Collier, Samuel Handlin, 2015-10-29 A historic shift has occurred in the organizational structures through which the lower classes in Latin America express voice and find political representation With the political and economic reforms of the 1980s and 1990s networks of community based associations and nongovernmental organizations replaced party affiliated labor unions as the predominant organizations to which the lower classes turned This volume examines the new interest regime in Argentina Chile Peru and Venezuela through two

extensive surveys one of individuals and one of associations undertaken in those nations capital cities Contrary to common perceptions the new interest regime is neither a vibrant autonomous civil society nor a set of weak atomized organizations Participation in associations is generally high compared to direct action as a strategy for pursuing collective interests and associations more frequently coordinate and engage the state than has sometimes been assumed However various forms of interaction with the state pose a classic trade off between representation and state control and the new interest regime is marked by representational distortion in that the lower classes are less likely to use the new structures than the middle classes Within these general patterns distinct national models are emerging This volume represents the most ambitious and systematic effort to date to examine individual participation and associational life in Latin America and to carry out a cross national analysis of new forms of political representation

Polite Politics Denny Ho

Kwok-leung, 2020-08-26 This title was first published in 2000 This book contributes to social movement theory and to an understanding of Hong Kong politics through analysis of an urban housing protest movement The theoretical approach adopted is a multi level one and seeks to show the influence of the political context the resources available to the groups concerned the actors interpretations of their situation and their strategy preferences This approach fills a gap in social movement theory because most theoretical frameworks focus on a single level of analysis The book also aims to help researchers in the field to re examine the current development of social movement theories and to learn the specific

trajectory of urban social movements in Hong Kong

Democratization Christian W. Haerpfer, Patrick Bernhagen, Christian Welzel, Ronald Inglehart, 2019 Democratization is the first textbook to focus on the global wave of democratization that has been occurring since around 1970 Bringing together leading authors from diverse international backgrounds it introduces students to the theoretical and practical dimensions of the subject in an authoritative accessible and systematic way The book takes into account the international factors that affect politics at the level of the nation state showing students the direction in which the discipline is moving It is accompanied by an innovative companion website that provides numerous resources for students and instructors Democratization covers several key themes including 1 Theories of democratization and their relation to democratic theory 2 Critical prerequisites and driving social forces of democratic transition 3 Pivotal actors and institutions involved in democratization 4 Conditions for democratic survival the consolidation of newly democratized countries and the analysis of failed democratization 5 Demonstrations of how these factors have played a role in the different regions in which the global wave of democratization has transplanted authoritarian and communist systems 6 Possible futures of democratization worldwide

Mayan Visions June C. Nash, 2002-09-11 A significant work by one of anthropology's most important scholars this book provides an introduction to the Chiapas Mayan community of Mexico better known for their role in the Zapatista Rebellion

Political Networks and Social Movements Soledad Valdivia Rivera, 2019-05-10 After a landslide electoral victory in 2006 Evo Morales became the first indigenous President of Bolivia Morales's stunning ascent was mirrored by the rising fortunes of his political party the leftist Movimiento al Socialismo which today continues to challenge the status quo in Bolivian politics and implement ambitious social reforms This study examines how the state and social movements have impacted democratization in Bolivia along with other sectors such as NGOs and the media Soledad Valdivia Rivera's analysis helps us to understand how the movement's relationships have come to transform the Bolivian political process as we know it

Women's Participation In Mexican Political Life Victoria Rodriguez, 2019-03-13 To date the mainstream literature on Mexican politics has said little about women even though their participation as formal political actors has increased dramatically in the past fifteen years Somewhat surprisingly the political participation of women although well documented in other Latin American countries has been neglected in the case

Socioeconomic Protests in MENA and Latin America Irene Weipert-Fenner, Jonas Wolff, 2019-07-05 This edited volume presents a detailed account of the dynamics of socioeconomic contention in Egypt and Tunisia since 2011 Combining quantitative and qualitative methods it analyses what has happened to the socioeconomic grievances that played a key role in the mass mobilizations of 2010 and 2011 The book is based on an original data set of socioeconomic protests in the two countries and on in depth case studies that cover the two most important types of socioeconomic contention labor protests and protests by socioeconomically disadvantaged people outside the formal economy Drawing on a systematic review of comparative research on Latin America the authors argue that the dynamics of socioeconomic contention in

contemporary Egypt and Tunisia reflect a deep seated crisis of popular sector incorporation This work promises to enrich the scholarly and the political debates on Egypt and Tunisia the MENA region and on contentious politics in times of political change Chapter 10 of this book is available open access under a CC BY 4 0 license at link springer com
