Making Of The Modern World Connected Histories Divergent Paths 1500 To The Present:

The Making of the Modern World Robert W. Strayer, Edwin Hirschmann, Robert B. Marks, Robert J. Smith, James J. Horn, Lynn H. Parsons, 1988-01-01 *The Making of the Modern World* Robert W. Strayer, 1989-01-01 **Politics and Reformations** Christopher Ocker, 2007 These twenty three essays explore the historiographies of the Reformation from the fifteenth century to the present and study the history of religion from the sixteenth to eighteenth centuries especially in Germany but also in Switzerland the Netherlands and colonial Mexico **The Face of the Earth** J. Donald Hughes, 2015-05-11 Although the organizing principle of virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs **The Oxford Handbook of Mission Studies** Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022 Includes over 10 cutting edge articles on Christian mission by scholars from all continents covering the agendas agents methods social effects and self understanding of Christian mission Offers an interdisciplinary approach including theology history and social sciences Includes sections on the theory theology practice and history of mission and mission in relationship to cultures religious and societies Book jacket **The Genesis of Israel and Egypt** Emmet Sweeney, 2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt s civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky

and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt s history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser s dream Imhotep is shown to be the same person as Joseph son of Jacob

Expansion and Global Interaction, 1200-1700 David R. Ringrose, 2001 A new entry in the Longman World History Series this volume is a perfect supplement to a World History or Western Civilization course as well as introductory courses on Asia Africa or Latin America Each book in the Longman World History Series edited by Michael Adas focuses on a prominent theme process or pattern in global history and treats the topic in a cross cultural and comparative manner In Expansion and Global Interaction 1200 1700 David Ringrose an established historian of Spain and the Spanish empire explores the dynamism that arose everywhere in the world after 1200 and shows how a series of autonomous societies became interdependent on a global scale by 1700 By examining the five major arenas of conflict ranging from Imperial China to the Aztec and Inca Empires he illustrates how political cultural and economic zones of influence expanded and overlapped The author concludes with the observation that by 1700 Europeans were influential across the globe but were not yet dominant in more than a few areas and as of 1700 their power in the nineteenth century would have been hard to predict

Pastoralists at the Periphery Claudia Chang, Harold Albert Koster, 1994-05 A Baluch tribesman follows his goats as they search for a bit of vegetation a Turkana youth guards his father's cattle against theft by raiders These pastoral inhabitants of mountain and desert waste are considered to be among the most geographically economically and politically peripheral of

peoples yet they are not entirely isolated from broader sociopolitical and economic forces The lives of modern pastoralists are greatly affected by the policies of nations and the demands of world markets They may face military control forced settlement stock reduction programs or even efforts at development by governments claiming sovereignty over the lands they roam The authors of this collection of essays examine the impact of capitalism on nineteenth and early twentieth century pastoralists and discuss the historical transformations that have occurred in the lives and societies of herding peoples around the world They argue that pastoralists were not simply passive recipients of change imposed by capitalist polities and that historical and economic factors impinging on their societies were as important as ecological ones Collectively these papers demonstrate that twentieth century pastoralists and their nineteenth century predecessors should not be seen as immutably locked in a pastoral mode of production but rather as actively negotiating encounters between themselves and the expanding power of capitalist states

European Elites and Ideas of Empire, 1917-1957 Dina Gusejnova, 2016-06-16 Who thought of Europe as a community before its economic integration in 1957 Dina Gusejnova illustrates how a supranational European mentality was forged from depleted imperial identities In the revolutions of 1917 to 1920 the power of the Hohenzollern Habsburg and Romanoff dynasties over their subjects expired Even though Germany lost its credit as a world power twice in that century in the global cultural memory the old Germanic families remained associated with the idea of Europe in areas reaching from Mexico to the Baltic region and India Gusejnova's book sheds light on a group of German speaking intellectuals of aristocratic origin who became pioneers of Europe's future regeneration In the minds of transnational elites the continent's future horizons retained the contours of phantom empires This title is available as Open Access

The Unwanted Child Joel F. Harrington, 2009-12-15 The baby abandoned on the doorstep is a phenomenon that has virtually disappeared from our experience but in the early modern world unwanted children were a very real problem for parents government officials and society The Unwanted Child skillfully recreates sixteenth century Nuremberg to explore what befell abandoned neglected abused or delinquent children in this critical period Joel F Harrington tackles this question by focusing on the stories of five individuals In vivid and poignant detail he recounts the experiences of an unmarried mother to be a roaming mercenary who drifts in and out of his children's lives a civic leader handling the government's response to problems arising from unwanted children a homeless teenager turned prolific thief and orphaned twins who enter state care at the age of nine Braiding together these compelling portraits Harrington uncovers and analyzes the key elements that link them including the impact of war and the vital importance of informal networks among women From the harrowing to the inspiring The Unwanted Child paints a gripping picture of life on the streets five centuries ago

French Emigration to Great Britain in Response to the French Revolution Juliette Reboul, 2017-08-25 This book examines diverse encounters between the British community and the thousands of French individuals who sought haven in the British Isles as they left revolutionary and Imperial France This painstaking research into the emigrant archival and memorial presence in Britain

uncovers a wealth of underused and alternative sources on this controversial population displacement. These include open letters and classified advertisements published in British newspapers, insurance contracts as well as lists of addresses and passports drawn up by local authorities. These sources question the construction by British loyalists and French migrant elites of a stereotyped emigrant figure and their use of the trauma of forced displacement to advance ideological agendas. In fact, public and private discourses on governmental systems, foreigners, political and religious dissent, and the economic survival of French emigrants demonstrate the heterogeneity of the responses to emigration in Britain. Ultimately, this book narrates a story in which the emigrant community and its host have been often unnoticeably yet fundamentally transformed by their encounter in both practical and ideological domains.

School Acts and the Rise of Mass Schooling Johannes Westberg, Lukas Boser, Ingrid Brühwiler, 2019-04-10. This book examines school acts in the long nineteenth century, traditionally considered as milestones or landmarks in the process of achieving universal education. Guided by a strong interest in social, cultural, and economic history, the case studies featured in the book rethink the actual value, the impact, and the ostensible purpose of school acts. The thirteen national case studies focus on the manner in which school acts were embedded in their particular historical contexts, offering a comprehensive and multidisciplinary overview of school acts and the role they played in the rise of mass schooling. Drawing together research from countries across the West, the editors and contributors analyse why these acts were passed as well as their content and impact. This seminal collection will appeal to students and scholars of school acts and the history of mass schooling. Chapter 9 of this book is available open access under a CC BY 4.0 license at link.springer.com.

Dismantling Orientalist Representations in US Education Daniel Osborn, 2024-09-30. This book examines the evolving role played by the social studies classroom in shaping national identity and contributing to Orientalism, which depicts the peoples of the Middle East as the Other relative to those of the United States and Europe. Building upon the momentum of critical approaches to examining the nature of knowledge, the role of schools in society, and the trends within social studies education and its hidden curriculum, the volume crucially shifts the focus toward a more global emphasis, examining the nature of Orientalism and the school as a setting where Orientalist logic and assumptions about the Middle East and its inhabitants are reified. Focusing on the ecosystem of social studies knowledge production and working within the sociology of knowledge, it traces this evolution across the 19th, 20th, and 21st centuries. A novel and unique exploration of knowledge construction and presenting a vision for a more nuanced and multifaceted portrayal of the Middle East that corrects for the deleterious aspects of Orientalism while avoiding a romanticized apologetic, it will appeal to scholars, researchers, and educators with interests in decolonizing education, social studies education, the history of education, and race and ethnicity studies.
