Neumann, 2024-02-02 People typically misunderstand how power works in schools Common thinking says that things like high stakes testing school reform efforts and political mandates exert the most power on schools The reality however is that power comes from everywhere It isn t a thing that only certain people possess nor does it operate linearly as in simple actions and reactions Instead power acts more like a web if you exert power in one part of a school the effects often spread across the rest of it The usual emphasis on big easy to see influences causes schools to focus on the wrong concerns the big public ones instead of the ones which make the most impact the small daily ones This book examines everyday phenomena inside schools to reveal the complexity and nuance of power and makes practical suggestions for how schools can manage power more effectively to maximize students learning *Leadership Matters 3.0: How Leaders At All Levels Can Create Great Schools* Andy Buck, 2018-07-31 FULLY REVISED AND UPDATED This book is just one element of a suite of resources designed to help improve the educational outcomes for all children by empowering educational leaders in national regional and local contexts to examine refine and develop their leadership skills In this revised and updated edition the author takes an in depth and diagnostic approach encouraging leaders at all levels in schools to think about their own personal qualities their specific situation their own leadership actions and their own overall leadership approach Developed alongside the book the *Leadership Matters* website gives school leaders affordable access to high quality online diagnostic tools videos and other leadership resources Everything on the website including the 40 exclusive videos is designed around the same 40 topics from the book known as the LM40 making it really easy for busy school leaders to find what they need *School Matters* Peter Mortimore, Pamela Sammons, Louise Stoll, Russell Ecob, 1988-01-01 The authors trace the fortunes over a period of four years of 2000 students in 50 randomly selected London elementary schools
