Our Schools and Education: the War Zone in America James R. Lake, 2009-08-27 In the ongoing saga of bureaucratic control misuse of money and personnel lies and failures not of the children but of the leaders educators and businesses that control education author James Lake firmly presents the truth versus the ideology in this comprehensive book Throughout *Our Schools and Education The War Zone in America* he includes the problems bureaucrats create and what we can do to reclaim our schools He shows workable and realistic solutions to help answer the pressing problems facing our children He invites everyone teachers parents and the young and old to be part of the positive effort instead of adding to the existing dilemma by doing nothing allowing the bureaucrats to continue to control massive amounts of money meant to help our youth This book is an eye opener and should be read by every American that believes in the educational traditions that have made our nation great With the help of teachers parents and communities we can set aside the educational socialism forced upon us by Washington D C and reverse our present direction returning education to our communities We must maintain the America that our parents knew and created and not succumb to being a one world government We will teach our youth to love America and to cherish our history and what America has stood for The key to this is our support for what is right for our children and our nation Our schools must teach the three Rs but also history science the arts technology vocational classes and give our youth a very broad and realistic education We

must not teach to a test nor national standards This book exposes the problems and gives answers to the needed solutions that every parent and teacher should be aware and active in their implementation Our Schools and Education The War Zone in America identifies the problems and presents the solutions to these issues so that educational socialism will be done away with and our communities will once again control and direct our schools reestablishing and maintaining the greatness that has been our nations May God bless America

Monthly Catalog of United States Government Publications ,1986 Monthly Catalogue, United States Public Documents ,1986 A Paradigm for Our Schools Lewis L. Whitmer,2013-04 When we look at the education in the United States today we find that the educational prowess and dominance has greatly eroded Many countries that we call third world countries consistently beat our students in math history social studies and science These countries have different morals and understanding of life than we but these things are not taught in their schools They are taught where they ought to be There are rules and regulations in the various countries that some in our country would like to adopt here but that is why we are not known as a third world country We have that thing called freedom and rights that those countries don t have Some of the courts have told us to take God out of the school the pledge and out of our state governments Our forefathers gave to us this method of understanding our history and we must understand that our forefathers mostly believed in God also that the very reason many people came to our lands in the beginning is to have freedom of religion and not freedom from religion This is just one way the courts are trying to change our lives This book will explore many reasons why teachers are unable to get the job done and why students aren t in the top ten of the world s knowledge pool We need to think on these things before it is too late
