Five Generations of a Mexican American Family in Los Angeles Christina Chavez,2007-04-09 Despite their citizenship and English

monolingualism Mexican Americans have long been known to remain largely working class which academically has meant that they tend to be mostly high school graduates with low rates of college attendance and completion Attempting to understand this phenomenon Five Generations of a Mexican American Family in Los Angeles chronicles the home work and school lives of the author's multigenerational family throughout the twentieth century Using oral histories of 33 members across five generations the Fuentes story illuminates the interaction between race ethnicity and class at home in the labor market and in schools which circumscribe the opportunity and resources or lack thereof for academic success Generally findings show that these factors work together to reproduce the family's social standing over generations Equally important the analysis reveals how the persistence and strength of the Fuentes heritage cultural values buena educaci n and familism have insulated them from the continued threat of racial discrimination and economic hardship in American life The Fuentes story provides the reader with a keen view of the process by which Fuentes moved from immigrants to ethnic Americans and shows how they have gracefully survived the harsh and unpredictable nature of being of a racial minority and the working class

The Cinematic Representation of the Chinese American Family Qijun Han, 2016-03-08 There has been an increasing recognition of the fluidity and ambiguity of ethnic identities within the context of global mobility With that in mind how have films constructed the identity of ethnic Chinese in the United States This book addresses this issue through three sub questions First why is the family narrative so characteristic of films about Chinese Americans in transnational Chinese cinema In other words how and why are images of Chinese or Chinese Americans in transnational Chinese cinema different from those in Hollywood movies Second how does transnational Chinese cinema define and negotiate the aesthetic conventions of melodrama commonly used to depict Chinese American families In terms of establishing melodrama as an evolving mode of how does Chinese American cinema historically connect with both Hollywood and Chinese cinema Third what have the narrative treatments of Chinese American families in transnational Chinese cinema contributed to the ongoing representation of Chinese culture and construction of ethnic Chinese identities in Western societies This book traverses fields such as cultural studies Chinese studies media studies American studies and film studies and engages with a select corpus of films from the 1990s to the 2000s directed by Chinese American Taiwanese and Hong Kong filmmakers and produced in the USA Taiwan Hong Kong and mainland China to analyze the role the American Chinese family plays in their work With sensitivity towards transnational bonds and historical processes a negotiation process of three sets of conflicting forces has subsequently emerged the traditional and the modern the national and the transnational and Chinese American identity crisis in favor of a Chinese identity or a true American identity Contrasting cultural beliefs undoubtedly create cross cultural and generational conflicts within the family yet also open the way to negotiation and compromise This research on the cinematic depiction of Chinese Americans reveals the historically significant transnational connection among Chinese American Chinese and American cultures On the one hand ethnic Chinese are represented by boundaries that establish and define the

Chinese American community against other communities and yet on the other hand the representation of family life and structure of Chinese immigrants is multiple and fluid as culture itself is unstable and uncertain Therefore a process of fixation and a process of fluidity seem to take place at the same time **An American Family** Jeffrey Ruoff,2002 Before 1973 the Loud family of Santa Barbara California lived in the privacy of their own home With the airing of the documentary An American Family that privacy extended to every American home with a television This book is the first to offer a close look at An American Family the documentary that blurred conventions stirred passions revised impressions of family life and definitions of private and public and began the breakdown of distinctions between reality and spectacle that culminated in cultural phenomena from The Oprah Winfrey Show to Survivor **The New York Times Book Review** ,1989-07
